

SPECIAL SESSION ENDS

Cascade Park Mecca For Merchants And Friends Tomorrow

City To Take Holiday Wednesday Afternoon As Merchants Frolic

Stores To Close, And Merchants, Families And Friends To Gather In Park

SPORT EVENTS TO FEATURE DAY

All is in readiness for the big holiday Wednesday, when the people of New Castle and vicinity, join with the merchants of the city and their employees in one big outing at Cascade Park.

Large groups of merchants of all lines are behind the affair and have arranged a program that will get underway with a parade at 9 a. m. and not come to a close until late Wednesday evening, when a magnificent pyro-technical display will be given.

The program includes free cats, free dancing, sports of all kinds with valuable prizes for the winners, and special prizes including a hundred baskets of groceries to be given away.

Distributes Tickets

Tickets for the prizes and free cats and dancing are being distributed at the stores and places of business participating. The various participating stores will remain open this evening for the benefit of the patrons who will be their guests on the day following.

Only Grocers To Be Closed All Day

Only the grocers will be closed all day tomorrow on the occasion of the annual Merchants' Picnic at Cascade Park. It was announced this morning through the Better Business Bureau of the Chamber of Commerce, the other merchant establishments in the main business section remaining open until 2 o'clock, when they too will close to enable their employees to take part in the festivities of the day.

Heat Wave Takes Total Of 50 Lives Before Abatement

Cooling Showers In Midwest And Along Atlantic Seaboard Relieve Suffering

MARYLAND REPORTS CROP DEVASTATION

Philadelphia Threatened With Water Shortage, Washington Still Swelters

(International News Service)
With more than 50 dead in its wake, the backbone of the three-day heat wave which swept the nation almost from coast to coast was broken today.

Cooling showers in the Midwest and breezes early today along the Atlantic seaboard indicated that the searing heat was taking at least a temporary departure, International News Service dispatches showed.

Rain in West
Rain has fallen in Missouri, Iowa and other sections of the Midwest. Winds broke the hot waves in the Chicago area and light winds fanned baked New Yorkers this morning, although any great relief was not promised for the New York area until this evening.

Fourteen persons were dead either by heat or drowning in New York, with the mercury reaching 99. Parks were opened to parched New Yorkers and in many offices workers were sent home.

Fifteen deaths were reported in Chicago before the mercury dropped. (Continued On Page Seven)

Mush Ball Fund To Buy Equipment For Nurses Home

Will Be Added To Money Received From Jameson Hospital Minstrel Show

Those mushball players who lent their aid to the benefit game for the Jameson Memorial Hospital, as well as all those who aided by buying tickets will be interested to know that the money derived from the game has been put to good use. Meeting Monday evening, the directors of the Jameson Memorial Hospital added the check of \$522.00 received, to the receipts of the minstrel show some time ago, and authorized the expenditure of the total, for equipment for the Nurses' Home and for the hospital.

Open but ten months, the Jameson Memorial Hospital has advanced even faster than was anticipated. Rapidly the hospital is gaining a reputation. (Continued On Page Two)

Drowns At Harbor When Dive Breaks Local Man's Neck

Seeking Relief From Heat, Carl Loudon Loses Life In Shenango River

FIRST SWIMMING ACCIDENT OF YEAR

Campers Drag River For Two Hours Before Body Is Recovered Near Midnight

Carl Loudon, aged 19, Youngstown road, R. D. No. 2, his neck broken, when he dove into the deeper waters of the Shenango river at Harbor bridge about ten o'clock last night, met instant death.

His body was recovered about two hours later, through the efforts of Earl Force, William Moore, Charles French, Kenneth and George Johnson, with the use of grappling hooks, brought to the scene by Officer Carl Lockard from the New Castle police department, and a canoe, in the place where he was last seen.

Locate Body
This group working from the canoe located the body with the grappling hooks in a short time and George Johnson dove into the water and brought the body up and to the shore.

Following the recovery of the body, Officer Lockard assisted by others, used the city pulmotor with the thought of resuscitating Loudon, the full extent of his injuries not having been determined at that time.

Loudon and a friend, James Hamilton, had been swimming at the Harbor bridge pool for some time previous to the accident that resulted in the death of the former.

They had swam across the river and back, when according to Hamilton Loudon suggested that they go to the deeper waters. Hamilton, not as good a swimmer as Loudon, did not do so, but Loudon went to the place.

He saw and heard him swimming about for a time and finally Loudon dove into the deep water and did not come up again.

Gives Alarm
Realizing that something had occurred of a serious nature, Hamilton spread the alarm. The police here were notified and asked for assistance.

Sergeant D. T. Nelson tried to get some of the life saving group of swimmers to the scene and finally got Jack Hulmes at New Wilmington, who started for the scene.

In the meantime, Officer Lockard and Louis Reebie were enroute to the scene in the police car with grappling hooks and pulmotor. Following the arrival of the officer a boat was secured, the grappling hooks were put (Continued On Page Two)

Public Invited To Inspect Home

Wednesday Set Apart For Public Inspection Of Margaret Henry Home

FIFTY CHILDREN BEING CARED FOR

Plans for a public reception at the Margaret Henry Home Wednesday were completed by the reception committee of 34 women who met in the Castleton Monday afternoon. Arrangements for the affair were formulated under the direction of Mrs. Charles M. Reed, chairman of the committee, which includes women prominent in New Castle society and philanthropy.

Although the home has been functioning for years through the aid and direction of interested citizens, the general public has not been acquainted with the scope of the work that is carried on. The institution now houses 50 children, many of them orphans. On Wednesday morning, beginning at 10 o'clock the doors will be opened to all to inspect the children's quarters, the home's equipment and the procedure taken by the directors to raise the tots in a motherly way.

President Marcus Fewchwanger urges the public to attend. No carous of invitation have been issued. Refreshments will be served by the committee in charge of the event.

News To Publish Early Wednesday

As a measure of co-operation with the merchants of the city, and in order to afford the employees of this paper an opportunity to attend the Merchants' Picnic in Cascade Park Wednesday, July 23, the New Castle News will be published at one o'clock tomorrow instead of the usual hour.

Stroke Causes Fall At Home; Death Follows

John Evans, Well Known South Side Merchant Passes Away Early Today

IN ILL HEALTH FOR TWO YEARS

John Evans, aged 59, 1120 South Mill street, manager of the Cashbush Mercantile company for the past 30 years, and one of the city's best known and most highly respected residents, died at 12:45 o'clock this morning, as a result of injuries sustained in a fall in his home following a stroke, by which he was overcome as he was near the top of the stairway of his home, on his way back to his room.

Of a kindly genial disposition, always thoughtful of the needs of others and most active in religious and civic circles, the announcement of his untimely death came as a shock to the entire community.

Sick Two Years.
Mr. Evans had been in poor health for the past two years and recently he had not been feeling as well as usual. Monday he spent the day at home, part of the time in bed and part of the time about the house.

He had gone to bed in the early evening on account of his condition and his wife and Mrs. J. H. Richards, a sister-in-law of Sharon, who has been visiting at the Evans home, were seated in the dining room talking, about 9:30 p. m. when they heard Mr. Evans get up.

Mrs. Evans called to her husband, asking him if everything was all right. He answered that he was all right and for her not to mind coming up.

It was but a moment, it seemed to Mrs. Evans and Mrs. Richards, when suddenly all the lights went out, and Mr. Evans came crashing down the stairs from the top to the landing a couple of steps above the door of the dining room.

All was in darkness, apparently from some cause resulting from the fall of Mr. Evans, as Mrs. Evans and Mrs. Richards rushed to the prostrate form of Mr. Evans.

Call Physician.
Candles were lighted and Mr. Evans spoke, when questioned by his wife, stating that he was not hurt much and everything would be all right. There was evidence, however, that he was badly hurt and Robert Markley, next door, arrived and assisted in caring for him, while Dr. Paris Shoaff (Continued On Page Seven)

Youngstown Judge Faces Indictment On Liquor Charge

Mayor Heffernan Will Push Case Against Popular Municipal Court Judge

(International News Service)
YOUNGSTOWN, Ohio, July 22.—The fate of a municipal judge, high in political circles, accused by Mayor Joseph L. Heffernan as receiving large quantities of bonded liquor stolen from the police station here a year ago seemed to rest today with the mayor.

Messages received from Washington yesterday from James M. Doran, former prohibition commissioner who investigated the case here a year ago, indicated that the government will take action against the judge if such a request is made by Heffernan. Doran is said to have declared that he has evidence sufficient for an indictment.

"I am considering pushing the case," Heffernan said. "I have openly mentioned the man's name." Reopening of the stolen liquor case is believed here to be bound up in Mayor Heffernan's recent announced determination to rid the city of vice.

Fire And Explosion Bring Suspicion Of Incendiary's Work

Building Of Pennsylvania Fireworks Burned To Ground, With Loss At \$2000

USED TO STORE DISPLAY SHELLS

Fast Work Of Employees Prevents Blaze From Spreading To Adjoining Buildings

Finished fireworks valued at \$2,000 were destroyed and the building in which they were located, blown to pieces, in an explosion occurring about ten o'clock Monday night at the plant of the Pennsylvania Fireworks company, a short distance north of West Washington street extension, in Union township. The cause of the explosion is undetermined.

Spread of the flames through the medium of the extremely dry grass and weeds, was prevented through the efforts of Jackamo Angeline, an employee of the company, John Caliga and others of the immediate vicinity, digging a trench and throwing up an earthen obstruction about the flaming remains of the building. Their efforts and the fact that there was little or no wind, prevented the flames from reaching the approximately dozen other small buildings of the plant scattered at intervals of several hundred feet from the scene of the explosion.

According to Jackamo Angeline, who resides but a short distance from the scene of the explosion and is an (Continued On Page Two)

WILL ROGERS says:

(Special To The News)
BEVERLY HILLS, Cal., July 22.—Well, the Senate passed the naval treaty. I wanted to get this amendment in, and I believe if it was put to a vote of the people it would go in.

"We sign this treaty because we sent a fine delegation over and they did the best they could, and we will back 'em up, but this is the last one we will sign."

"While the whole idea sounds fine, it's a lot of 'hoes' in practice. You can no more tell a nation what inch gun he is to shoot with, than you can tell him what he is to wear while shooting you, so we hereby plead with all nations!

Let's quit holding conferences, stop conferring, and just be friends again."

Yours,
Will Rogers.

Pythian Knights Observe Fiftieth Lodge Birthday

Golden Anniversary Of Robert Blum Lodge Observed In Fitting Manner

GRAND OFFICERS MAKE ADDRESSES

Golden anniversary of the institution of Robert Blum Lodge, No. 468, Knights of Pythias, was most fittingly observed Monday evening at a banquet held in the dining room of the Fountain Inn, with Grand Chancellor C. W. Herman Hess of this city, presiding as master of ceremonies and with many prominent Knights of Pythias of this section of the state in attendance.

The occasion was featured by the presentation to William C. Hess, father of the grand chancellor, and a charter member as well as keeper of records and seals of Robert Blum lodge of a handsome pen and pencil set by Attorney William J. Moffatt on behalf of the members of Robert Blum lodge.

Expresses Appreciation
Mr. Hess, the recipient, was so overcome at the time, that he was unable to express his appreciation. Later in presenting a brief history of the fifty years of Robert Blum lodge, he did take occasion to express his deep appreciation of what had been done for him.

The very successful occasion was the result of the untiring efforts of the committee consisting of Clell Springer, Robert H. Maxwell, I. Rose, C. E. Lamison, D. R. Peterson and C. W. Herman Hess.

The setting in which the affair was held was most appropriate the guests of the evening being seated in small groups at tables, which were attractively decorated with flowers.

Each guest was the recipient of a handsome souvenir, the gift of Jack Gerson, a member. Place cards designated the place of each guest at the tables. The American flag and the insignia of the Knights of Pythias occupied a prominent place at the side of the Grand Chancellor.

The occasion, one of great importance in the history of the lodge was the occasion of remarks of an eulogistic character both of this lodge, which is stronger and better than ever after fifty years of existence, of William C. Hess, the sole surviving charter member and the Grand Chancellor, C. W. Herman Hess, his son.

Convention Chairman
W. C. McKim, chairman of the state convention to be held here next month told of the preparations being made in the course of his remarks. Memory of late William J. Clapsie, master of finance, and one of the outstanding members of the lodge for many years was fittingly extolled.

The program of the evening included the following: (Continued On Page Three)

SENATE RATIFIES TREATY ADJOURNS TILL DECEMBER NO APPOINTEES CONFIRMED

Clock To Replace Electric Sign On Christian Church

Anonymous Giver Presents Church With Electric Clock In Place Of Sign

TO COMPLETE WORK BY EARLY AUTUMN

Extensive interior and exterior alterations, to include the removal of its electric sign and cost \$14,000 have been started on the First Christian church, Park way. The work is expected to be completed October 1, according to Rev. G. S. Bennett, the pastor.

In explaining the reason for removal of the electric sign, on which work was started Monday, Rev. Bennett said that its presence had spoiled the appearance of English gothic style, of which the edifice is a splendid example. A large illuminated electric clock is expected to take the place of the sign. The clock will be a gift of a church member. Rev. Bennett said the gift of the clock to the church will in reality mean a gift of the First Christian church to the city. The electric sign has been in place for four years.

The redecorating work will include repainting of the entire interior, the Sunday school basement, the building of a new pulpit and new pulpit furniture, redecoration of the kitchen and installation of an entire new lighting system. The contract for the interior work has not been made as yet.

M. E. Vaughn is the chairman of the house committee supervising the alterations. He is aided by the following committee: Mrs. Grace Phillips Johnson, John Herbold, R. B. Sage, Ben Johnson, Harry W. White and William T. Barnes.

The senate adjourned with Democratic spokesmen threatening fights next December against presidential appointments to both the power commission and the newly organized tariff commission. The President probably will name recess appointees to the tariff commission but the Federal Power Commission will lie dormant during the summer, because recess appointments will not be in order.

Harrison's Parting Shot
Senator Ed. Harrison (D of Miss., took a parting shot at the administration over the President's failure to name the tariff commissioners while the senate was in session. He announced that every recess appointee would be "scrutinized from the day he was 21" and that if either Chairman Edgar B. Brossard, of Utah, or Thomas O. Marvin, of Massachusetts, were reappointed, there would be bitter battles waged against their confirmation in the fall. He termed both men the "special advocates of special interests."

The three nominees of the President to the power commission died because Senators McKellar (D) of Tenn. and Walsh (D) of Mass., objected to immediate confirmation. McKellar said he intended to closely investigate the qualifications of all three appointees, even though they (Continued On Page Two)

Father Confesses Killing Children In West Virginia

Taylor Hott, 35, Laborer Admits He Killed Three Children As Act Of Mercy

OFFICIALS FAIL TO BELIEVE STORY
Autopsies Show That Children Were Dead When Thrown Into Swimming Pool

(International News Service)
MARTINSBURG, W. Va., July 22.—Sullenly defiant, Taylor Hott, 35-year-old laborer, was held under charges of murder today following discovery of the bodies of his three small children submerged in the waters of a quarry pool here yesterday.

An confession said to have been made by Hott late yesterday, the father of Gertrude, 7, Calvin, 6, and Boyd, 5, told a tale that county authorities found difficult in squaring with results of the autopsies.

Confesses Crime.
"I killed them because we were unable to provide for them properly," Hott was quoted as having told Assistant Prosecutor Charles N. Campbell of Berkeley county.

"I took the children out for a walk in the afternoon. When we reached the quarry I told them they ought to go in swimming. When they said they didn't want to, I grabbed them, one at a time, tied handkerchiefs around their throats so they couldn't scream, and then threw them into the water."

Although wounds inflicted by a knife and bruises made by a blunt instrument were reported found on the little bodies, Hott steadfastly maintained that they had drowned. (Continued On Page Two)

Ratification Vote Demonstrates Hoover's Strength In Holding Quorum

DEMS PROMISE FIGHT ON RECESS MEMBERS

Presidential Nominees To Power Commission Held Up, Commission To Wait

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent
WASHINGTON, July 22.—After ratifying the London Naval Treaty by an overwhelming vote and ending its special session, the senate today joined the house on a vacation to last until the Seventy-first Congress convenes in December.

Binds United States
Ratification of the pact officially bound the United States, along with Great Britain and Japan, to mutual limitations on the battleships, cruisers, aircraft carriers, submarines and destroyers. Proponents of the treaty declared the limitations gave the United States an actual parity with England and a superiority over Japan but treaty foes protested the British were given a superiority and Japan parity with America.

The tremendous heat wave in Washington, with temperatures soaring over the hundred mark, helped to terminate the special session. The final adjournment came rather unexpectedly and administration leaders abandoned fights to secure confirmation of three members, named by President Hoover to the new Federal Power Commission, along with several other lesser nominations.

In the present heated season, there's a scientific reason why you shouldn't lose your temper and begin to fuss and swear, nor berate your next door neighbor, if he borrows your new thingumbob, don't rate and tear your hair. For you may get overheated and come down with something bad, like the flu or epidemic so be careful then, m'lud. Take it easy, take it slowly, do not rush around in rings, do not tear up all the office, if you cannot find your things. Count a hundred or a thousand, or go out and get some play, but do not get over heated, weather's ninety five today.

Writer Answers A Few Queries About Women

(International News Service)

PARIS, July 22.—Do women make themselves beautiful for the men or for themselves. Cecil Beaton, writing in the continental edition of the "Daily Mail" asks this question and answers it by saying that nobody really knows the truth about the matter but adds that it really is admirable for women to "spruce" themselves up even for Englishmen, though they may not be able to specify just what it is that attracts or annoys them.

Women may think, he explains, that the men do not like the bloodred finger-nails and excessive make-up or some other detail of the prevalent fashion, but in spite of this fact they continue in the practice of these whims. Brightness and attractiveness, he agrees, are the chief assets for a woman, and most men prefer to listen and be amused rather than to worship sheer beauty.

On the other hand, though a woman may be bright and interesting if she looks the slightest bit worn out, tired or ill, she is laboring under a great disadvantage. All smart young men realize that the young woman must indulge in the game of pretense which everyone is already playing.

"It is impossible," concludes the writer, "in our exaggeratedly heightened life for a young woman to create an effect if she is unadorned. The unadorned beauty is as out of harmony in London as the simple peasant who takes to powdering in the fields."

"And there is a great deal of good produced by the mental effect of being spruced up—you feel at your best, you possess radiance and brilliance, you may even be scintillating and witty under these conditions, you will be self-confident, and there is ever a chance that under these circumstances, you will radiate an aura of glamor against which no man is fully equipped."

SAYS PROPER FOOD WILL MAKE FEWER DIVORCES

(International News Service)

SAN FRANCISCO, Cal., July 22.—"Divorce and indigestion have a lot in common. Both problems should be attacked and solved in the laboratory of the housewife's kitchen."

The homey philosophy was expounded at a recent meeting of prominent San Francisco clubwomen by no less an authority than Herr Hugo Wiedenhofer, internationally known chef and "car of cuisine" on the Matson flagship Malolo.

"A happy man is a healthy man, and a healthy man is a properly fed man," explained Chef Wiedenhofer. "Balanced meals, tasty food and scientific preparation! There you have the secret of happy married life."

"I make no claims as a biochemist, and yet I know from experience that food combinations have more to do with temperament and conduct, than heredity. An ill-conceived diet, persisted in, will make a demon and a grouch out of any man. By the same token, intelligent feeding will make the same a model of congeniality."

Chef Wiedenhofer also stressed the importance of considering climatic conditions in arranging menus. Calories should be regulated in accordance with the season, he said.

He illustrated this point with copies of menus he is preparing for the 24,000 miles around-Pacific cruise of the Malolo this fall. In the temperate, northern waters the menu will vary widely from that prepared for the tropical regions of the South Seas and Hawaii.

If the way to a man's heart is via the stomach, concluded Wiedenhofer, "the same rule applies in holding him. I believe divorces would decrease 50 per cent, if housewives would make a scientific study of cookery."

"Feed the—gentleman, is still sound advice. But feed him wisely. And never ask for a fur coat on an empty stomach."

PA NEW OBSERVES

(Continued From Page One)

His shirt front was covered with badges. The badges suspiciously resembled the caps from pop bottles, but what is the difference?

This morning Pa New's spied ears of corn on sale at some local stores. Put on your ears-muffs, folks, for the corn eating days have arrived.

It's been a long time since this happened—A lady carrying an umbrella of the old type as a sun shade and on Mercer street, too. Hope it brings some rain and relief from the hot weather.

While no relief from the intense heat loomed in sight during the last few days, New Castle's ice water drinking fountains became meccas for hundreds of pedestrians in all parts of the city.

The eight drinking places in the city became the favorite stopping off point for children and adults alike. The green fountain on the diamond appeared to lead the other fountains in popularity.

G. M. Houser, of East Washington street, got a twelve pound turtle in a stream near Leesburg, yesterday. And that isn't the first one that he has caught this year.

East Washington street from Butler avenue up looks like it had just passed through an earth quake or a shell bombardment, with the sidewalks all torn up to make way for the underground cable of the American Tel. and Tel. company. Then, the corner lot, where the new Epworth M. E. church is being built, adds to the muddled appearance. Butler avenue is being torn up for a sewer.

Don't forget the New Castle Fair dates—August 5, 6, and 7.

An outdoor job Monday afternoon wouldn't have been so pleasant, Pa New's opines. The heat was almost as terrific as it was on Sunday afternoon. Some of those who work out of doors have acquired a coat of tan that's not far from a deep bronze.

City life will be forgotten and camp life will provide thrills a plenty for 50 under-privileged lads whom the Rotary club will send to Camp Phillips for a week. It is the custom of the service men to provide such an outing for the boys—those who are most worthy and who could be most benefited.

Did you read the appeal of the Jameson Memorial Hospital Aid society last night? Ladies of the city are asked to can a bit more fruit this year so that it might go to fill the hospital needs. Will you help?

Wednesday's day when most of the merchants downtown will close their doors at 2 p. m. and go to Cascade for the annual outing of New Castle stores.

Several New Castle residents, back from Atlantic City, report they saw the flagpole sifter, "Shipwreck Kelly," resting "comfortably" on a large disc on the top of a pole along the boardwalk. He was sitting out another record.

A large pottery set for 65 persons has been donated to Troop F, 103rd Cavalry by the Shenango Pottery company. Now no one can say that New Castle's hard boiled guardsmen will eat out of their hands when they arrive in Mount Getz for military training.

Saw the sedate "Deacon," well known in newspaper and court circles, cooling off in the Neshaunkon. But that's not what I was thinking about. It was that new swimming suit of a real loud color, that could be heard as well as seen for some distance.

Seems as though some of our geniuses could make good use of their talent and help mankind by discovering some method of storing up some of the surplus heat of the present time for use next winter. Would mean quite a saving to most of us.

Myself, wife and all the rest of the New's plan to be at the Merchants outing Wednesday. Don't see how I can stay away with all those free eats, dancing and sports.

See where Stan Treser's new motor street sweeper is going on night duty and make a clean sweep of the downtown business streets. It will do one good thing, if nothing else, and make some of the night parkers remove their automobile, antique and otherwise, to points less conspicuous and give the stranger a better opinion of this town.

Strange, is it not, that fat people, in spite of the sweltering hot weather, still find it necessary to diet or take some reducing medicine, to lose much in weight.

Pa New's reputation as a convention city will be materially increased during the coming month, when the state convention of the Knights of Pythias and also of the Carpenters is held here. We'll have several hundred visitors from all parts of the state here to again spread the name and fame of the city as a hospitable center and an ideal place in which to hold conventions.

Airplane, flagpole and other kinds of endurance contests so popular by notoriety seekers these days, are gradually wearing out the endurance of the rest of us. Might be different if the contests were of more benefit to most of us.

Neshaunkon river on Mill street is proving quite useful these days, Young Pa New thinks. The other day the writer saw several kiddies fishing, swimming was in progress yesterday, and last night several fishermen were capturing crabs for fishing trips.

Harassed by heavy rains, an airplane was observed flying east over New Castle last night. Later in the evening observers saw the same plane, still battling with the elements, return and fly west. Due to the great height at which it was flying the type of plane could not be ascertained.

You're the JUDGE

The father of a young girl suddenly discovered that his daughter had been attached by his son-in-law who was living under the same roof with the family.

The father approached the young man to inquire about it, and received from the man the answer that it was "none of his business."

The reply so enraged the father that he rushed for his revolver, and on coming back shot his son-in-law dead.

The father was put on trial for murder. At the trial the prosecution argued that words, however opprobrious, constitute in law no provocation to killing.

How would you decide this case? Make up your mind before you read the decision.

Decision will be found on classified ad page.

MUSH BALL FUND TO BUY EQUIPMENT FOR NURSES HOME

(Continued From Page One)

In Western Pennsylvania as being a modern, efficient one, and the increase in patients testifies to the worth of the institution.

Much Free Work
An immense amount of free work is being done at the hospital. Patients being 18 to 25 free patients daily. Three internes and a house physician are now on duty constantly and the service of the hospital is so much superior to the old Shenango Valley, which it replaced, that one hesitates to make and comparison.

James A. Smith, Sr., a newly elected member of the hospital board was present for the first time Monday evening and expressed his admiration of the manner in which things are being handled. He succeeds Murrow D. Wells who is now in Pittsburgh, Pa.

The Jameson Memorial Hospital is a New Castle institution, opened for the good of the citizens of the city, and richly deserving of the assistance of every citizen of the community. The directors were pleased with the check received from the mushball fund and it came at a time when equipment is needed.

employee of the company, there was the sound of two shells exploding after which the entire place went up in one big explosion.

May Be Incendiary
Rushing to the scene, he discovered, he stated some fuse of a type of fireworks in which many colors are displayed, a type of fireworks of which there were none in the building destroyed.

This leaves the theory of the possibility of the place being fired as well as that of spontaneous combustion, which is most acceptable under present weather conditions.

The building destroyed was of frame construction, sixteen by eighteen feet in size, and located about the center of the plant, due to the fact that it was the place of assembling finished products.

Peter J. Iodice, president and general manager of the plant, was out of town, due to the fact that he was engaged in putting on a fireworks display at Rankin, Pa.

Croton Avenue Job About Half Done

Woods & Golder have practically finished one half of the repaving with concrete of Croton avenue. The work is being expedited as fast as possible. Meanwhile the grading of Grant street continues and house connections are being made by public utilities concerns in Butler avenue.

STAR LORE WHY SUN AND STARS RISE OBLIQUELY

By Arthur DeV. Carpenter

WHEN THE SUN is on the equator it rises and sets at right angles to the equatorial horizon. But as one journey northward, the plane of the horizon tips, lifting away from the south polar region and dipping under the north polar. Consequently the sun cannot rise and set at right angles to a northern horizon, but rises obliquely. When the sun is north of the equator it rises at a point north of east, mounts southward to a point on the noon meridian, but swings back to a point north of west, where it goes down.

When the sun is farthest north in summer, its direct rays shine into north windows mornings and afternoons.

Sunshine Kensington Club.

Mrs. Mollie Johnson had for her guests Monday evening the members of the Sunshine Kensington club. At the close of the devotional period a good program was given with "Missionary Work" as the topic.

Papers were read by Mrs. Carolyn Williams, Mrs. Mary Coffey and Mrs. Mabel Gardner and the circle joined in singing. Special guests were Mrs. Stewart Indianapolis, and Mrs. Cora Duffin.

The hostess, assisted by Mrs. Wilkes and Mrs. Duffin, served dainty refreshments. In two weeks the club will meet in the Elm Street Y. W. C. A.

Treaty Roll Call

WASHINGTON, July 22.—The following is the way the Senate voted on the London naval treaty:

For—
Republicans—Allen, Borah, Brookhart, Capper, Couzens, Dale, Deneen, Fess, Gillett, Glenn, Goldsborough, Gould, Greene, Hastings, Hatfield, Herbert, Howell, Jones, Keen, Keyes, LaFollette, McCullough, McMaster, McNary, Metcalf, Norris, Patterson, Phillips, Reed, Robinson of Kentucky, Schall, Shortridge, Smoot, Steiwer, Sullivan, Thomas of Idaho, Townsend, Vandenberg, Walcott, and Watson.—40.

Democrats—Black, Brock, Caraway, Fletcher, George, Glass, Harris, Harrison, Kendrick, King, Overman, Robinson of Arkansas, Seppard, Swanson, Thomas of Oklahoma, Trammell, Wagner and Walsh of Montana.—18.

Against—
Republicans—Bingham, Hale, Johnson, Moses,

Oddie, Pine and Robinson of Indiana.—7.
Democrats—McKellar and Walsh of Massachusetts.—2.
Total—9.

It was announced the following members not voting were paired against the treaty:

Republican—Waterman, Democrats—Broussard, Pittman and Copeland, Farmer-Labor—Shipstead, Minnesota.

The following were paired for the treaty:

Republican—Blaine, Democrats—Ashurst, Tydings, Bratton, Dill, Wheeler, Hayden, Stephens, Hawes and Simmons.

Of the other absentees it was announced the following would have voted for the treaty:

Republicans—Baird, Cumming, Frazier, Goff, Grundy, Norbeck and Nye. Democrats—Barkley, Connally, Ransdell, Steck and Smith.

No announcement was made respecting Senators Blease and Hefflin, Democrats.

SENATE RATIFIES TREATY, ADJOURNS TILL DECEMBER

(Continued From Page One)

had received unanimous endorsement from the senate Interstate Commerce commission. This killed the power commission for the summer, since it is a reorganized and hence a brand new commission to which recess appointments are invalid.

The clash over the presidential appointments came as an aftermath to the treaty fight, which lasted two weeks a day. The little band of treaty foes, led by Senator Johnson (R) of Cal., went down to defeat without asking quarter. They delayed the final vote for two weeks only to find the senate utterly indifferent to their arguments. In the closing hours of the fight, they sought time and again to add reservations to the treaty but all save one were defeated, all overwhelmingly, many without record vote.

Lone Reservation
The lone reservation adopted was accepted by the administration and merely based ratification upon the condition that no secret agreements exist between the three nations.

Some of the other reservations would have had far more important effect but were rejected by one-sided votes. Among others, the senate refused to accept reservations guaranteeing the "freedom of the seas" to neutral nations to compel England to remove naval bases from the American coastline, to punish nations violating the Kellogg anti-war treaty, to compel the construction of 11 eighteen 8-inch cruisers allowed America before the treaty expires, to limit the use of armed merchantmen, and to keep any disputes from being submitted to the World Court, in all, 13 proposed reservations were defeated.

The treaty foes never getting more than eleven votes for any reservation. The administration's "steam-roller" crushed the opposition and the treaty itself was ratified by a vote of 58 to 9.

The opponents had five more votes paired against the treaty, so their maximum strength totalled 14. They were Senators Bingham, Hale, Johnson, Moses, Oddie, Pine and Robinson, Ind., Republicans, and McKellar and Walsh (Mass.), Democrats, who voted, and Waterman, Republican and Broussard, Copeland, and Pittman, Democrats, and Shipstead (F-L), who were paired against it.

The outcome never was in doubt, once the administration demonstrated its ability to hold a quorum of the senate.

(International News Service)
WASHINGTON, July 22.—President Hoover will sign the treaty the United States entered into with Great Britain and Japan for limitation of naval armament this afternoon.

The hour will be arranged soon as Senator Robinson (D) Arkansas, and Reed (R) Pennsylvania, who were delegates at the London conference, are notified to appear at the White House.

The president's signing of the document, ratified yesterday by the senate will be featured by a ceremony arranged for the sound motion picture photographers.

DROWNS AT HARBOR WHEN DIVE BREAKS LOCAL MAN'S NECK

into use and the body located in a net. It was brought ashore and the pulmotor put into use immediately.

It was just twenty minutes from the time the call was received by the police until the body had been located and it was being brought ashore.

The body had been in the water about two hours at that time and this without the fact that Loudon's neck was broken, was sufficient to prevent his resuscitation.

Call Coroner
When it was determined that there was nothing to be done under the law was called and Coroner J. P. Caldwell notified. The body was brought to the Kelley Funeral home, Washington and Chestnut streets, where it was prepared for burial.

The indications are that Loudon in diving into the water struck his head on some object at the bottom of the river with such force as to break his neck, probably causing instant death.

Carl F. Loudon was born in Edenburg, Lawrence county, October 14, 1910, the son of Frank and Myrtle Wigton Loudon and was in his twentieth year.

He is survived by his parents, his grandfather Lawrence Wigton, one sister, Mrs. Forrest Raub of this city and two brothers, Charles of Edenburg, and William at home.

Funeral services will be held Thursday at 4 p. m. daylight saving time, at the residence, on the Youngstown road in Edenburg township. Interment will be made in Graceland cemetery.

The honeymoon is over when he can carry a cigar in his vest pocket without it being broken.

Deaths of the Day

Mrs. Lou Meade DeForest, aged 70, widow of Homer DeForest, died in Overlook Sanitarium at New Wilmington, after an extended illness.

Mrs. DeForest was the daughter of the late Rev. and Mrs. O. L. Meade, her father having been a prominent pastor in the Erie Conference of the Methodist Episcopal church. She was married in New Castle to Homer DeForest, pioneer Sharon grocer, January 4, 1880, and went to Sharon to reside. Following the death of her husband, she went to the home of her nephew, M. V. DeForest of Sharon, to reside.

She leaves a son, Clyde DeForest, of Buffalo, N. Y., a sister, Mrs. Mary Smiley of Foxburg, Pa. A brother, Rev. C. O. Meade, died about two months ago in Grove City.

Funeral services will be held from the home of M. V. DeForest of Sharon, Wednesday afternoon at 2 o'clock.

Mrs. Margaret Skidmore.

Funeral services for Mrs. Margaret Skidmore, 39 North Mercer street, were held from the family residence Monday afternoon with Rev. G. S. Bennett officiating.

Palbearers were William Thorn, Jacob L. Snyder, Paris McConnell, Aaron Hoskins, Bert Harrington and Homer Reynolds. Interment was made in Greenwood cemetery.

Mrs. Anna Sadler Thompson.

Mrs. Anna Sadler Thompson, aged 61, widow of Andrew Thompson, died at the home of her daughter, Mrs. Frank W. Meyers, 616 Allen street, Monday at 8:45 p. m. following an illness of several months.

She was born in Ireland July 12, 1849, the daughter of Thomas and Eliza Sadler, and had been a resident of New Castle 34 years. She was a member of the Second U. P. church and of the Orange Ladies lodge 24.

She is survived by a daughter, Mrs. Frank W. Meyers, and two sons, John A. and Robert H. Thompson of this city; a sister, Mrs. Catherine Nelson of Cleveland, and a brother, John Sadler of Woodland, Calif., and seven grandchildren.

Funeral services will be held Thursday at 2:30 p. m. from 616 Allen street with interment in Oak Park.

Rose Rich.

Rose Rich, the 15-year-old daughter of Mr. and Mrs. Alexander Rich, 219 Lutton street, died in the New Castle hospital at 6:25 Monday evening, following an illness of typhoid fever. An added sadness is caused by the fact that a sister and brother, Joseph and Mary, both seriously ill in the hospital with the same disease.

She is survived by her parents, three brothers, Joseph, Anthony and Barney, and two sisters, Mary and Florence.

Funeral services will be private from the residence at 10:30 Wednesday morning with interment in St. Vitus cemetery.

A. M. Fulton.

The body of A. M. Fulton of the firm of Fulton & Brees, dental laboratories, will arrive in this city this evening at 10:40 from Phoenix, Ariz., and will be taken to the Jos. S. Rice chapel. Funeral announcement will be made later.

Clyde Lindsey Funeral.

Funeral services for Clyde E. Lindsey were held from the family residence, New Castle R. D. 5, Monday afternoon at 2 o'clock, with Rev. T. J. Keegan of the Christian and Missionary Alliance in charge, assisted by Rev. J. McMannis of the Shenango U. P. church.

Many beautiful floral tributes spoke feelingly of the sympathy of a host of friends. Two hymns were sung by Earl Baker and David Wheale. Palbearers were David Wheale, John Fowler, James Hinkson, Roy Hinkson, Charles McGary and George McGary. Interment was made in Graceland cemetery.

Mrs. Thelma Fox Funeral.

Funeral services for Mrs. Thelma Fox, 810 Vogan street, were held from the family residence Monday afternoon with Rev. S. B. Copeland of the Third United Presbyterian church officiating.

Palbearers were Glenn Harper, Oscar Swanson, Joe Walzer, Jackson Biddle, Alvie Cummings and Tal Bevans. Interment was made in Oak Park.

Mrs. M. Nail Funeral.

Funeral services for Mrs. Margaret Nail were held Monday morning from the family residence, 8 Spring street, with Rev. Claude Downs of the Savannah church officiating.

Palbearers were Findley Smiley, M. O. Oliphant, Wm. Stide, Charles McCintock, Claude Harper and Sylvester Zimmerman. Interment was made in Oiler City.

William J. McBride.

William J. McBride, a prominent business man of the city, died suddenly at his residence, 1701 East Washington street, Monday at 3 p. m. Although Mr. McBride had been sick for some time, his death came as a shock as his condition was not considered critical.

He was 62 years of age and the son of John and Isabel Moore. McBride was born and spent his entire life in Lawrence county, and was engaged as a tinner for the past

Plan To Improve North Mercer Street

Would Provide Direct Route Between Glenmore Boulevard, Englewood Avenue

Councilman Stanley Treser reported today that city officials yesterday had joined Neshannock township supervisors Douglas and Reynolds in a view on North Mercer street for the purpose of improving the road between Glenmore boulevard and the city line, north.

According to Treser there is a sanitary sewer in North Mercer street, one half of which is situated in the city and one half in the township. It is not proposed to grade but it is planned to improve the road.

Should the improvement be made it will afford a good dirt route for residents of Englewood avenue and thoroughfares north to travel south to the central portion of the city without traveling south on Highland avenue.

It is estimated that the work will cost \$500.

During the view a question arose as to the lines and it was decided that before and work should start that the engineers and solicitors for the township and the city study the maps.

"It looks like a sure improvement," said Treser today.

Stofchik Swims Ten Miles Of Ohio River

Cramps Force Local Swimmer To Complete Ohio River Swim Sunday

Michael Stofchik, Jr., son of Mr. and Mrs. Michael Stofchik of 8 Terrace avenue is among those who have failed to swim down the Ohio river from Rochester, Pa., a distance of 20 miles which if completed would have taken him to East Liverpool, Ohio. Stofchik attempted the swim on Sunday afternoon but after completing 10 miles of the grind was forced to quit when his legs became cramped.

Stofchik stated today that he expects to make another attempt to swim the 20 mile distance in a few weeks. He was feeling fine when his legs cramped and forced him to give up. Accompanying him were his manager, Frank Mack, and the following: Dewey Casner, Fred Marcella, Don Alfaro and James Guido.

During the day time Ferrell operates the grader.

Man Loses Pants While Sleeping On Park Bench

(International News Service)

AKRON, O., July 22.—That westward travel is beset with as many dangers now as it was in the days of Daniel Boone or of Rodgers and Clark is the opinion today of Harry Mullins of Saltillo, Va.

Mullins had heard tales of the bad men that roam the western plains and when he laid him down to sleep on a park bench here yesterday he took the precaution of placing his clasp knife in his hand so that he could spring to his feet fully armed at the first Indian war whoop or the first long drawn out howl of a wolf pack.

Whether it really was Indians, Mullins isn't sure, when he finally did awake with a start and spring to his feet he no longer had his clasp knife and—softer—he no longer had his trousers. His shoes were lying on the ground some distance away.

A LAVISH CONGRESS

COOLIDGE and Hoover economy policies were ignored by congress when, in its last session, it authorized the expenditure of \$4,203,254,457 by the federal government during the current fiscal year, for that figure represents \$209,000,000 increase over the federal budget for the preceding year. It has been a policy of the present administration to reduce the national budget from year to year, rather than increase it. President Coolidge counted that to be one of the principal aims of his administrations.

This excess of expenditures over the running costs of the government last year, is for the most part due to two causes, expenditure on public works intended to help industry maintain a normal level, and veterans' relief. Moreover, the normal growth of the country constantly works for some increase in government costs.

While the public is directly interested in reduction of government costs and resents most increases that add to its burden, it approves of pensions and other relief for war veterans and believes the public funds used for public works will pay dividends in increased federal revenue from revived industry and in improved employment and business conditions.

The budget increase is of formidable size, and yet, but for the firmness of President Hoover, it would have been much larger. Congress, in its recent session, was constantly at war with the president's economy program.

THE KANSAS MIRAGE

Geographically and agriculturally Kansas and Iowa are not very far apart, but in their attitude toward the Hoover administration and the federal farm board they are as far apart as the Anti-Saloon League and the Association Against the Eighteenth Amendment.

Afflicted with the wheat hysteria, Kansas politico-farmers are clamoring for unsound government adventuring in market manipulation and condemning the administration at Washington and the federal farm board. How different is the picture in Iowa.

Iowa voters at the state senatorial primary endorsed the farm relief policies of the government and the efforts of the farm board. Then the Republican state convention meets to echo the popular verdict. Iowa is far enough to concede that the new farm product tariff rates are the most favorable the farmer has ever enjoyed and takes the reasonable viewpoint that passage of the farm relief legislation did not cure all farm problems in the state.

This stand is a reminder that the Kansas attitude of blaming the administration and the farm board because they cannot reverse the workings of natural and economic laws and of seeking to prod them into unwise action is not necessarily to be accepted as typical of the position of agriculture as a whole.

The Iowa idea of recognition, appreciation and co-operation is more likely to produce results than the Kansas campaign of caustic criticism and vituperation.

TOO MUCH WHEAT

Kansas and the other states that are clamoring against Washington because wheat prices are down will have no early opportunity to heckle President Hoover as they have been trying to heckle Chairman Legge, of the federal farm board. The president, in curtailing his vacation plans, omitted the wheat belt from his itinerary and refused all speaking invitations.

The president could accomplish nothing by visiting the wheat states at this time. Nothing he could say or do would relieve the situation there.

Neither the administration at Washington nor the farm board is responsible for the low price of wheat. It would take very potent black magic to keep the open market prices of wheat high when there is far too much wheat in the world.

The position of wheat is no different from that of other commodities. The open market prices of copper are less than half what they were last year. The prices of steel have fallen sharply. Cotton is down.

There is a difference, however, between the reactions of the wheat growers and of the others to these desperate market conditions. At the first sign of overproduction the copper, steel, automobile and coal interests curtailed production, but the agriculturists, with an even greater overproduction to cope with, continue to increase their acreage.

Some people would rather seem bright than pleasant.

The Way OF THE World

By GROVE PATTERSON

THE SERVICE OF NEWS

Senator Capper, Kansas, is right in introducing a bill to exempt reporters from penalty in refusing to disclose sources of news. Newspapers, honestly conducted, furnish the public a service far beyond price.

In usefulness and real value, the newspaper has come to be one of life's most necessary necessities. Nothing must be put in the way of the legitimate activity of every editor and every reporter in gathering and presenting news for the community. Reporters in Washington have been serving jail terms for refusing to tell where information came from. They are martyrs to an important cause. The public must be served with news, and those who serve must be reasonably protected by the laws and the courts.

RESPONSIBILITY

One reads the following dispatch from Urbana, Ill.: "A banker who stole \$100,000, and a chicken thief who pilfered 15 pullets were taken to the same penitentiary yesterday." John H. Thornburn, former president of the Urbana Banking company, who confessed to the embezzlement of \$100,000 from the bank,

will serve from one to 10 years. He was taken to Chester penitentiary on the same train with Coy Leach, of Penfield, Ill., the chicken thief, who was sentenced to serve from one year to life.

The mind leaps to the idea of injustice. And yet the injustice may be less than it seems to be on the surface. The banker may have lived a long and useful life. The deed for which he is suffering may have been the first and last serious misstep of his life. The chicken thief may be a habitual criminal, one who has preyed on society for a generation. One needs all the facts to judge injustice.

NO DRAMATIC APPEAL

If 3,000 persons, or even half that number, were being killed every month in an American war, the day would soon come when an outraged citizenship would arise and demand the end of war and slaughter. And yet one learns from the Worcester Telegram that about 3,000 persons were killed in automobile accidents in the United States in September, the worst month on record. During the first nine months of this year 21,000 persons lost their lives as a result of automobile accidents. The figures are presented by the Travelers Insurance company. They are not prominently displayed in the newspapers, and they will not cause excitement anywhere. The public is not calling for an end of the needless slaughter on the streets and highways.

A Strange Busy World.
Florida's Big Gain.
Two Good Sailors.
Portugal's Warning.

By ARTHUR G. BRISBANE

News items of many different kinds in our strange and busy world.

The recent Japanese typhoon destroyed 11,000 houses, doing \$50,000,000 damage, causing many deaths.

On Long Island, H. S. Black, one of New York's most important and active business men, chairman, president or director in more than a dozen great corporations, sent a bullet through his head. Too much strain too much trying, too much "spreading out" The big man has his worries.

Eminently respectable houses of New Yorkers were raided on Long Island. Each concealed a secret radio sending broadcasting set, illegally installed. The "respectabilities" were arrested, accused of sending information and warnings to rum runners on the water. There were many such stations along the New Jersey shore during the war, sending information to the Germans, according to the Italian ambassador, Count De Celler.

Alpha Zoro, ancient Turk alleged to be 156 years old, enjoys New York, according to his press agent. The old man is a valuable asset and the press agent should be cautious about diet and other things. England possessed in Thomas Parr the oldest of men, according to authentic documents.

Born in 1483, he died in 1635. He married at 120, worked well at 130. The English king, interested, sent for him. Parr came to London, was entertained and died. Long life is a matter of diet, fresh air and regular life.

Florida, like a boy with growing pains, has known troubles. The worst was the influx of real estate schemers followed by crowds, buying stupidly. That was a greater calamity than any dozen assorted fruit flies. You can kill fruit flies. You can't kill stupidity.

However, nothing can interfere with the immediate growth or gigantic ultimate prosperity, of such a state as Florida, destined to be the permanent home of millions, and the winter sun parlor of many other millions.

E. D. Lambright, editor of the Tampa Morning Tribune, wishes the world, to know that in percentage of population increase, Florida comes second to California only. Florida's percentage of gain is three times that of the 27 states thus far enumerated. For one that lost hundreds will make Florida fortunes in years to come.

Two Annapolis midshipmen will be dismissed, 15 others severely punished because two young women, disguised in Annapolis blouses, were allowed to dine in the Naval Academy's mess hall. It was wicked to let the young women see the mysteries of the mess hall. But the two young men now to be dismissed might have made navy men. The Secretary of the Navy might read over again the lustre of young Nelson, greatest fighting sailor of all time.

When Captain of a British ship that was coasting up and down our shores during the revolution, he saw a girl in Canada, fell desperately in love, abandoned vessel, worst of all crimes. His friends carried him back to the ship by force, kidnapping him to save his reputation and honor. Sometimes energy wasted in a foolish direction means energy to be used later, usefully.

When Wolfe asked for a chance to capture Quebec, he strutted up and down boasting so much that his superior was attempted to dismiss him. But he did climb the heights of Abraham and take Quebec, dying of wounds on the battlefield.

"Is a cure for exuberance, none for barrenness."

That should be remembered by critics of youthful foolishness.

Assurance of protection given to Jews in Roumania by the recently returned and presumably reformed King Carol, amount to little.

At Bukovine, 3,000 armed farmers announce their intention to "finish with the Shumites and authorities." They turn against the government, declaring that it tried to protect the Jews.

If those farmers would read the history of Portugal and contrast it with the histories of England, they would know what happens to nations that persecute and drive out Jews, and to nations that treat them justly; they would know what will probably happen to Roumania. Wait until Russia comes, as it will, into the hands of an aggressive conqueror.

Open Mind On Mooney's Case Is Held Creditable To Public

Some Comments Indicate That Propaganda Is Suspected But Weakness Is Found In Evidence That Produced Conviction

Widespread comment on the case of Thomas J. Mooney and Warren K. Billings, convicted in California as guilty of the fatal Preparedness Day bombing in San Francisco in 1916, is considered evidence that the American public has an open mind on subjects of this kind. Charges that the defense of the two men has been largely radical propaganda made, but there is also responsible opinion that, in view of the change in testimony by such witnesses as John MacDonald of Baltimore, there are doubts as to guilt.

Interest in the fate of Mooney and Billings does credit to the country, avers the BUFFALO EVENING NEWS. "Nothing can be far wrong so long as the people maintain a truly served justice. To see justice served should, as a member of the Supreme Court once observed, be the greatest interest of man on earth." The News finds that "the opinion is widely held that the men were convicted on general principles, an opinion which is fortified by statements from the trial judge and the surviving members of the jury that convicted them."

Describing the crime as "one of the most fiendish, brutal and diabolical in the history of the country," the LOS ANGELES EXPRESS reviews the later court proceedings in connection with recent appeals, saying: "Governor Young asked the State Supreme Court to make an exhaustive inquiry into the Billings case and advise the Board of Pardons if in the court's opinion there were circumstances to warrant a pardon, this course being followed because of the fact that Billings was an ex-convict, and as such could receive no clemency excepting upon recommendation of the state's highest court. It was assumed that Governor Young meant to be guided in his action in the Mooney case by the court's decision in the case of Billings. After a thorough examination, extending over several months, the Supreme Court announced there was nothing in the record to show that Billings had not been fairly tried and justly sentenced."

"It cannot be said that Mooney has not suffered punishment," declares the SOUTH BEND TRIBUNE, convinced that "belief that he is innocent has increased as the years passed, largely because the evidence on which he was convicted has been apparently torn to shreds by investigators and volunteer witnesses." The ALBANY EVENING NEWS holds that the case was never convincing, while the KANSAS CITY STAR states: "The responsible authorities in California evidently have been disposed to believe the case is guilty because they were suspicious characters. But other persons, including Mooney's trial judge, the ten living jurors, Billings' prosecutor, the present district attorney, and several police officers who worked on the case, have been convinced of their innocence."

Attitude of the trial judge, prosecutors, police who handled the case and jurors causes the PORTLAND OREGON JOURNAL to feel that there is substantial "question of Mooney's guilt." The HARTFORD TIMES believes that "California's handling of this case does not reflect credit on the State." The HAVRELL GAZETTE points out that "preceding that disastrous occasion was a decade of industrial and political strife," and that "feeling was high." The NEWARK EVENING NEWS contends that "Mooney has been made a living martyr by California, not only in the eyes of radicals and extremists, but to fair minded persons of the most circumspect and conservative political affiliations."

The effect of agitation on the public mind is discussed by the SAN BERNARDINO SUN, and in the course of the statement it remarks: "For a long period of years the Mooney defense league has flooded the country with literature designed to prove to the satisfaction of any reasonable person that Mooney and Billings were innocent. This campaign, supported by donations running into the hundreds of thousands of dollars and

Since the House membership will remain at 435, this increase for California will cause the other States to lose representation accordingly, and the States of Missouri and Pennsylvania are expected to suffer the heaviest losses.

When the reapportionment figures were first estimated by the Census Bureau, the population of California was placed at approximately 4,700,000, while early reports indicate that the actual population will be in excess of 5,600,000.

The law for the reapportionment provides that each State shall pass necessary legislation to reapportion its representation in Congress, whether it be larger, smaller, or remain the same, and if the State fails to do this, the change will be made automatically by the law as enacted by Congress.

perhaps into the millions, has had a marked effect on public opinion. There was no organization to challenge the claims of the defense league. The supreme court, however, challenged these claims. * * * The league has had in its possession statements of the presiding judge, all of the surviving jurors, and various police officers. Likewise it has the benefit of the opinion of a commissioner appointed by President Wilson to investigate the case. * * * It is not surprising therefore that many influential organizations, led by church and labor bodies, have made flat declarations of their belief in the theory that Billings and Mooney were railroaded."

"Which shall we believe," asks the SAN FRANCISCO CHRONICLE, "the testimony MacDonald gave in court or the subsequent denial? This looks like a hard question. However, the Supreme Court has shown how it can be analyzed. MacDonald testified in court under the cross-examining fire of able lawyers for the defense. The lawyers did their best to break down his testimony, for it was vital. They had two chances in two trials. The lawyers did not succeed in breaking down MacDonald's story. They were smart lawyers and MacDonald was no intellectual giant. But his story stood up under fire."

"Organized labor has been unceasing in its efforts to secure Mooney's pardon," asserts the SALT LAKE DESERET NEWS, while the YOUNGSTOWN VINDICATOR offers the judgment that "the agitation to release these two has been chiefly propaganda." The MUNCIE STAR contends: "Much of the agitation on behalf of the California prisoners has been based on no more understanding than that which prompted the bombing shortly before the execution of Sacco and Vanzetti in Massachusetts."

The World AND THE Mud Puddles

PENNSYLVANIA WILL LOOSE

There is going to be a soul burning time among the politicians when representation in the House of Representatives of the Nation is reapportioned. There will be those in the House who are going to lose their happy homes and some of them live in Pennsylvania.

Final census figures probably will show California with almost 1,000,000 more people than had been estimated and this change will result in greater shifts of State representation in the House of Representatives than had been expected.

This population will probably increase California's representation to either nineteen or twenty and this will cause a loss to some of the other States.

It had been expected that the largest increase in House representation would be in California, but it is now anticipated that the increase will be eight or nine instead of the estimated six.

Since the House membership will remain at 435, this increase for California will cause the other States to lose representation accordingly, and the States of Missouri and Pennsylvania are expected to suffer the heaviest losses.

When the reapportionment figures were first estimated by the Census Bureau, the population of California was placed at approximately 4,700,000, while early reports indicate that the actual population will be in excess of 5,600,000.

The law for the reapportionment provides that each State shall pass necessary legislation to reapportion its representation in Congress, whether it be larger, smaller, or remain the same, and if the State fails to do this, the change will be made automatically by the law as enacted by Congress.

"THE WHISTLING BOY A lad went whistling down the street, I never saw his face. It may be we shall never meet At any time or place. And I may never learn his name Or know him in the throng. But still into my life he came To be remembered long.

I think that I shall never sigh Again within my room. But I shall hear that lad go by Whose whistle broke the gloom. And I am sure when unto me Come dreary doubts and fears That youngster's cheery call will be Still ringing in my ears.

"Cheer up! Cheer up! The sun is high." His music seemed to say. "Oh, why does anybody sigh On such a lovely day? And why is anybody glum When all is fair to see? I think that boy was born to come And stir the faith in me.

To see his face I was too late. The

Will Organize Committee For Disaster Relief

Committee Will Be Available In Case Flood Or Fire Should Strike City

WILL FUNCTION UNDER AMERICAN RED CROSS

Statistics Show 36 Disasters In Various Sections Of Country During May

Chairman Clarence A. Patterson of the Lawrence County Chapter, American Red Cross, announced today that final plans are being made to organize a Disaster Relief committee to function in the event of any disaster in Lawrence county under the auspices of the American Red Cross.

Mr. Patterson in a statement this morning, said that owing to the large number of disasters throughout the country recently, it is felt that this community should have a tentative organization formed to cooperate with other local agencies in dispensing relief should New Castle or any section of Lawrence county, be stricken.

Approximately 25 local business and professional men and women have been asked to serve and to be known as the Red Cross Disaster Relief Committee. While it is hoped that this committee may never have to function, it will be ready for any emergency which might occur.

No meetings will be held by this committee and the members will only act when called to do so by the general chairman. Literature outlining the proper procedure in the event of a disaster, will be given each member of the general committee and the different sub-committees.

Mr. Patterson stated that the response to invitations sent out several days ago, asking leading citizens to serve on this committee has been such, that the complete organization will be ready for announcement shortly. It is planned to have the roster of the committee printed and placed in the different business houses and industrial establishments of the county so that all may know to whom they may turn immediately in the event their assistance is needed.

"During the month of May, 1930, advices from the National office of the American Red Cross state, 36 counties throughout the United States suffered fires, floods, etc." Mr. Patterson pointed out. In all of these instances, financial assistance was rendered by the American National Red Cross. Trained field workers were also detailed to assist the local chapters in organizing and maintaining relief work.

"This same organization will be available in the event of any emergency in New Castle as a part of the program of the National organization," he stated.

Asks \$10,000 For Injuries Sustained In Auto Accident

Grace L. Barwell Files Suit Against Martin H. And Marie E. Mills

Suit for \$10,000 damages has been filed at the prothonotary's office by Grace L. Barwell against Martin H. Mills and Marie E. Mills for injuries sustained in an automobile accident, while the plaintiff was a guest in the defendant's car.

Miss Barwell claims that she was invited to ride in the Mills car driven by Mrs. Mills on what is known as the Oak street extension, Youngstown, O.

When plaintiff approached a crossing at the intersection of Oak street and the Hubbard-Cottsville road, she claims that Mrs. Mills was driving in excess of 50 miles per hour and in a reckless manner.

The Mills car struck another car crossing at the intersection. Plaintiff was thrown through the roof of the Mills car. Her collar bone was broken. She received cut on the head, other parts of the body and internal injuries. She was taken to St. Elizabeth's hospital in Youngstown, where she remained for some time, her hospital bill amounting to \$612. It is alleged that her injuries were due to the manner in which the car was being operated.

New Brass Rail For Weary Feet

In the old days it was customary for a brass rail to be placed outside the bar. At the court house the practice has been reversed, and a brass rail has been placed within the bar. It is a foot rest for jurors in court room No. 2. Ever since this room was equipped there have been complaints from jurors over a needed foot rest. It was installed this week and will be ready for the next jury.

Young Bathers Refuse To Tear Out "Swimin' Hole"

Young Folks Tell Mayor They Will Present Case To Council, Friday

Mayor William Gillespie reported today that he had sent a policeman to young swimmers in the Neshannock river, near the P. R. R. crossing and that the boys said that "if we tear out our 'hole' and build one near North street bridge, we will encounter water from sewers."

The mayor later had a delegation of boys visit him at his office and the boys presented their side of the case which was heard in council yesterday. A property-owner reported a tenant would lose 'roomers' should the boys' case continue.

The property-owner was not in a belligerent mood or vexed with the boys. He tried to devise some way whereby the boys could have a swimming 'hole' and at the same time have the tenant keep the 'roomers', whom he said slept during the day time.

Council talked about a municipal swimming pool but nothing further than talk ensued. Solicitor White maintained that if the city built such a pool it would be liable for any accidents or drownings.

Up to Mayor

Finally councilmen put the problem on the shoulders of the mayor. In other words he was to carry the brunt of "battle" but he confessed at the time that it would be a difficult task to wage successfully. Notwithstanding, he attempted.

Policeman Charles Longstreth was the bluecoat who was dispatched as a messenger with the information from the mayor. He broke the news gently.

The boys listened to Policeman Longstreth state his case. And then they submitted their side of the case. Finally he suggested that they had best talk it over with "Hizzoner, the Mayor" and into the mayor's office trudged the young boys, mostly from the Neshannock creek section.

Mayor Gillespie heard the boys' side of the case and when they told of the sanitary sewer water falling into the creek at approximately the point where the city desired them to build their swimming 'hole', he advised them to visit council and tell council the same as they told him.

So, Friday, the boys will appear, it is said. It is reported that they have selected a spokesman. Whether he will be an attorney or one of their number is not known. At any rate, according to the mayor, the boys want to keep their present swimming place. The question is not new. Years ago it came before council.

HEAT WAVE TAKES TOLL OF 50 LIVES BEFORE ABATEMENT

(Continued From Page One)

Temperatures reached 103 in Washington and some government offices closed.

Cleveland reported three deaths and 13 drownings; in western Pennsylvania and West Virginia 26 persons died, with readings of 112 degrees in West Virginia. Three persons died in Baltimore, 10 in the Philadelphia area and there were four heat deaths and eight drownings in St. Louis.

Boston—Parts of the Rockies and the Pacific coast escaped the terrific blasts of the sun.

At Plainfield, N. J., a government weather observer reported 103 degrees in the shade. Tomato and berry crops in New Jersey have been damaged by the hot weather, and in the Mid-West grain crops were burned up in some sections.

Crop Ruined

Maryland officials estimated almost half of summer crops had been ruined. Wells were reported dried up in that state.

In Georgia a woman reported she went to see how her patch of popcorn was growing and discovered it had popped right on the stalk and was bursting forth like cotton, ready for a little salt and immediate eating.

Pittsburgh, July 22.—Rain . . . cooling breezes . . .

Pittsburghers trooped to work today over rain-soaked pavements, cheered by the promise of more rain and lots of it, accompanied by breezy zephyrs from the northwest. The weather man made the promise and the torrid spell appeared to be broken.

Philadelphia, July 22.—A water famine confronted Philadelphia today as the terrific heat wave continued unabated, leaving a toll of 12 dead in its wake in this district.

The shortage became so acute when the normal consumption of water reached 850,000,000 gallons instead of the usual 360,000,000 daily that stringent measures were taken to alleviate the situation. Motor squads of police were sent throughout the city to shut off hydrants, and scores of persons, including many children, disporting under open hydrants were arrested.

Scores of prostrations were reported as the mercury climbed to 103, a new high record for July in this vicinity. The predicted thunder storms for last night and early today failed to materialize, but fulfillment of the prediction is expected late today.

Boston, July 22.—Slightly lower temperature followed today in the wake of a series of thunder storms over New England last night, which caused the deaths of two persons, injury to several others and did thousands of dollars of property damage in a score of cities and towns.

Detroit, July 22.—Turned storms today brought relief to the sweltering Detroiters who for the past two days have been suffering from high temperatures of about 95 degrees.

Two deaths and more than 10 prostrations were reported yesterday when the mercury equalled its Sunday climb. One other death was caused by drowning.

Washington, July 22.—The capital continued today to swelter under the abnormal heat of the past few days, but the weather bureau held out some hope of relief late this afternoon.

Baltimore, Md., July 22.—With a toll of two dead and 10 prostrated from yesterday's terrific heat, the weather bureau promised showers for this afternoon and a slight abatement of temperature.

New York, July 22.—Light breezes

early today brought at least temporary relief to New York and along the Atlantic seacoast after record-breaking heat. Showers and cooler weather were predicted tonight, weather bureau officials said, although late today high temperatures may again make millions gasp for breath.

Chicago, July 22.—Cooling showers and northerly winds combined today to moderate the record-breaking heat wave that had seared the Middle West for the past three days.

Before the torrid wave was banished here yesterday by cloudy skies and a northeast wind it had claimed nine more victims, bringing the total toll in the metropolitan area to 15.

Columbus, O., July 22.—Relief from the scorching heat which has enveloped Ohio for the past week and which has caused scores of prostrations, drownings and combustion fires throughout the state, was promised by U. S. weather bureau officials here today. A light shower of short duration fell here last night and heavy thunder showers and cooler weather were predicted for tonight.

STROKE CAUSES FALL AT HOME; DEATH FOLLOWS

(Continued From Page One)

was summoned and arrived shortly afterward.

Mr. Evans was removed at once to the New Castle hospital, where it was determined that he had sustained a fractured skull in the fall, which had been caused in the first place by a stroke. His death followed about three hours later.

Mr. Evans was born in Nantmool, South Wales, the son of John and Jane Evans. He came to this country about 37 years ago, going first to Pittsburgh, then to Youngstown and finally locating here but a short space of time after arriving in this country.

His training had been along mercantile lines, his father conducting a general store in Nantmool and as a result of his ability in mercantile lines, he soon became associated with the Cashbushers Mercantile company of this city as manager, which position he had retained ever since for a period of 30 years.

He had been a member of the Emmanuel Baptist church for many years, and because of his active interest in the work of the church had been a deacon and also a church clerk for more than 15 years.

He was a member of Mahoning lodge F. & A. M. and New Castle Consistory, in which organizations he took a very active interest.

Mr. Evans is survived by his wife, Mrs. Elizabeth Evans and one daughter, Miss Nettie Evans at home, also the following brothers and sisters: Mrs. Pennington, wife of Rev. Arthur Pennington of Hampstead, London; Mrs. Jones, wife of Rev. Hugh Jones of Llanelli, Wales; Mrs. Davis, wife of Dr. S. T. Davis of Port Talbot, Wales; Mrs. Aubrey, wife of Rev. Edwin Aubrey of Chicago, Ill.; Mrs. Roland Jemison of Barry, Wales; Mrs. Owens, wife of Rev. Gwin Owens of Penarth, Wales, and Edgar Evans of London, England. A sister Sarah and a brother, Dr. Gomer Evans of Nantmool, Wales, and his parents preceded him in death.

Owing to the serious illness of a brother-in-law, Rev. Edwin Aubrey of Chicago, Ill., the time of the funeral arrangements will have to be made later.

Life Boat Kept Ready For Action

City police today stated that the boat and oars, purchased by the city last year at the suggestion of Walter Tyler who left council in January is at the city police station, kept ready for use. In case of drowning at the mouth of the streams it would be possible for persons to use the boat.

When the boat was purchased Councilman Tyler made it plain that the boat was for the use in the saving of lives and the rescue of bodies.

It might not be amiss for calls for aid to be sent to police No. 8, State police No. 4378, sheriff's office 568, county detective 388, and The News 4000.

The persons at these telephones no doubt will try to render all assistance possible.

Bills Submitted To City Engineer

Bills for the repair and construction of sidewalks in several places by Frank Cagnetti have been submitted to City Engineer Frank Miller, who in turn, will present the bills to city council for payment. The bills follow: work at property of J. M. Bonner, Highland and Leasure, \$40.16; property of Curry Lumber company, \$170.85 and Day Real Estate company, \$79.00.

Expect Widening To Be Made This Year

Genkinger Favors Improvement In Hill Section Of East Washington Street

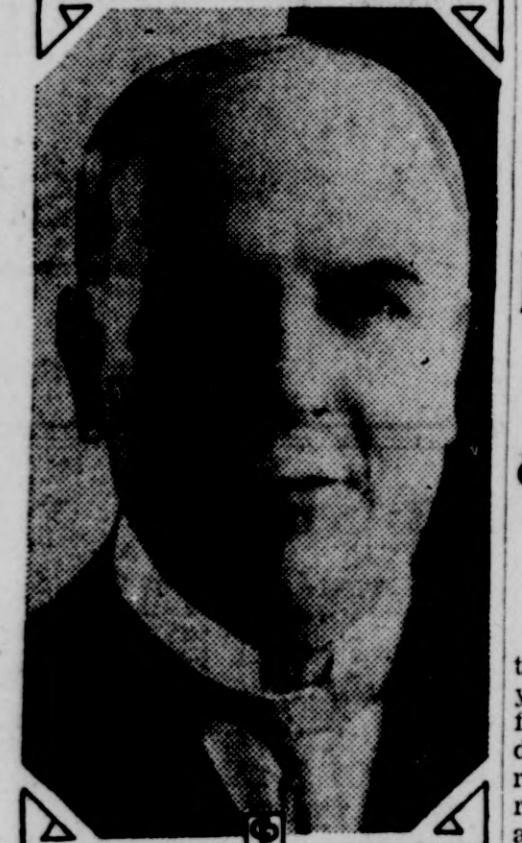

City Councilman Louis Genkinger stated today that he believes the city will be able to widen East Washington street between County Line street and Butler avenue this year but said that he did not believe the poles would have to be moved back until the improvement gets under way. The cartway is to be made 36 feet by putting the curb back three feet on each side.

Widening of East Washington street has been a topic discussed often but actual work has never been started. An ordinance calls for the improvement and recently the city engineer was instructed to prepare plans and specifications.

If the thoroughfare is widened between County Line street and Butler avenue it will act as a benefit to traffic. Automobiles cannot operate on either side of street cars unless the driver of the auto is decidedly careful.

The ability to star in vaudeville is another thing acquired by staying in the air a long time in an airplane.—The Charleston Evening Post.

To Welcome Eagles

"Abolish the Poor-House in America" will be the slogan of business and legislative sessions when 50,000 members of the Fraternal Order of Eagles meet in convention at San Francisco, Aug. 11-16. Proposals will be heard for establishing old-age pensions. Mayor James Rolph, Jr., above, of San Francisco, is honorary chairman.

Etheridge Fails To Visit Council

City Officials And Frame Ready For Meeting Which Fails To Take Place

Harry Etheridge, superintendent of the Harmony route, was in New Castle yesterday but he did not visit city officials nor State Highway department district engineer T. C. Frame who were ready for conference with Etheridge, relative to the repaving of Butler avenue. Instead, it is reported, Etheridge visited the company's attorneys.

The city and state wants the company to lay new rails of the girder type and lay them in concrete and wants operation of cars stopped over improved sections while the repaving is in progress.

It is reported Etheridge desires rails of the "T" type and wants them laid in crushed stone and desires that the cars operation not be stopped. At least this is the information announced by city officials.

Etheridge has discussed the proposed improvement with City Engineer F. F. Miller and the state's district engineer, T. C. Frame. However no actual decision has been reached and City Solicitor Robert White today state that he believes repaving will be delayed.

The City, according to Councilman Genkinger and colleagues will insist that the company abide by the provisions of the city ordinance. T. C. Frame, the district engineer of the highway department, it is reported, will support the city's demand.

Castle Hill Mission Continues Meetings

Free Employment Agency At The Mission Supplies Work And Homes For Many

An interesting sermon has been arranged for this evening at the Castle Hill Mission tent with Evangelist superintendent Schmidt delivering a discourse on "We know that whosoever is born of God sinneth not, but he that is begotten of God keepeth himself, and that wicked one toucheth him not."

These meetings are held every evening with all day services Saturday and Sunday, beginning with a sunrise prayer meeting at 6 a. m.

The free employment agency of the mission has been able to place a great many children on farms this summer and have been able to secure employment for a great many persons who have been out of work for a great while.

Meals and rooms are also furnished the needy who apply at the mission and Mrs. Alice Schmidt, the matron supplies them with wholesome well cooked food.

Fifty Scioto Street Girls Have Started Week At Camp

A camp fire program will be enjoyed by the some fifty Scioto street girls who are spending this week at Camp East Brook, Y. W. C. A. camp four miles from New Castle, on the Neshannock river. Camp songs will be learned this evening. If the weather is unsuitable, the get-together will be held in the cottage.

Since the girls arrived yesterday, they have been enjoying themselves. The intense heat was not bothersome at the camp, with the cool waters of the new swimming pool awaiting use. Swimming is the most popular sport at the camp these days.

A hike had been planned for this afternoon, but, because of the rain, the plans were adjusted and the afternoon was just as enjoyable if not more. The girls donned their bathing suits and went for a "river hike." They explored the shores of the Neshannock.

Last night, when all the girls had

arrived, a meeting was held plans for the week were discussed, games were played, a vesper service took place and the girls got acquainted with each other.

This morning, they formed groups and elected councillors to supervise each group.

On Wednesday they will have their first lessons in first aid, a program of recreation and in the evening a jolly time will take place in the form of a Mother Goose masquerade.

Police Chief And Officer Are Held On Liquor Charge

(International News Service)
PITTSBURGH, Pa., July 22.—John Franko, Glendale Police Chief, and George E. Manning, Carnegie Motor-cycle Patrolman, charged with transporting liquor, were held in \$500 bail each after hearing Monday before United States Commissioner Knox.

A five-gallon can of moonshine which prohibition agents said they found in Franko's car was intended for the convention committee of the Western Pennsylvania Volunteer Firemen's Association, it was testified at the hearing. According to Federal agents Franko and Manning at the time of their arrest said that they had been at the banquet and had left

Urges Hoover Call Wheat Growers Of Nation To Meeting

(International News Service)
WASHINGTON, July 22.—President Hoover was urged Monday to summon a special international conference of representatives of wheat growing nations to devise a plan for a general curtailment of world wheat production.

The president was asked to take this extraordinary step by Senator Elmer Thomas (D) of Oklahoma, as a means of relieving the ever recurring distress in the American wheat belt due to over-production of wheat in this country and throughout the world.

Expressing dismay at the federal farm board's attitude in the present wheat crisis, Thomas also appealed to the president to direct the board to resume its buying of wheat even to the extent of spending the whole \$500,000,000 authorized by Congress. Thomas declared this huge expenditure would be neither "irrational or

unwarranted" in view of the serious distress throughout the wheat belt.

Situation Alarming
The federal farm board's present plan for curtailing wheat production only in this country alarmed him, he wrote the president. If America reduces her wheat crop, he predicted, it would result only "in stimulating the production of wheat in Canada, Argentine, Brazil, Australia and other wheat growing countries."

Thomas also warned the president that the reduction of the American wheat crop by 200,000,000 bushels would mean a "serious loss of revenue" to farmers and that "such a loss would be felt severely in many sections and incidentally all over the entire United States." He added that it would mean "a further migration of our farm population to the cities, to the injury of all our population."

"I do not oppose the curtailment program," Thomas explained, "provided other wheat growing countries are solicited and urged to join in such a general curtailment plan."

Two Are Wounded By Gangsters In New York District

One Shooting Occurs In Manhattan And The Other In Brooklyn Today

(International News Service)
NEW YORK, July 22.—Two mysterious shootings occurred Monday. One in Manhattan, the other in Brooklyn.

Louis Amberg, an ex-convict known as "pretty," was shot by gangsters as he rode with a friend in an automobile. He is in a hospital in a critical condition but declined to describe the shooting or name his assailant.

James Di Sapo, 42, was the victim of the other shooting. He was riddled with six bullets by a group of men in an automobile who sped by and shot him as he stood at a street corner in Brooklyn. He was taken to a hospital where it was said his chances for recovery were slight. He was too badly injured to give the police any information.

Philippines Will Protest Naming Of Nicholas Roosevelt

(International News Service)
MANILA, July 22.—The Philippine legislature today unanimously passed a joint resolution protesting the nomination of Nicholas Roosevelt as vice governor of the Philippines.

The New York nominee of President Hoover was charged by Filipino leaders as having "deep race prejudices." His writings about Filipinos were described by them as "unjust and offensive."

It is predicted in some quarters here that the Filipinos will institute a regime of non-cooperation in the event the Senate ratifies the Roosevelt appointment.

Wealthy Man Is Suicide Victim

Harry S. Black, President Of United States Improvement Corporation Suicides

(International News Service)
NEW YORK, July 22.—Utter boredom caused Harry S. Black, president of the United States Realty Improvement Corporation, owners of the Savoy-Plaza string of hotels, to take his life, his friends said Monday.

These associates pictured the millionaire as surfeited with life. He had at his beck and call all the luxuries that enormous wealth could command, yet nothing interested him, they said. He did not care for the arts and was not interested in any sports.

Black died hours after he was found on his Long Island estate. A bullet in his head and a revolver near his hand.

All rumors of crime in connection with his death were ended when the coroner pronounced his death suicide. Officials said they were satisfied Black took his own life. The motive, the coroner said, was melancholia.

Financial matters, it was said by his friends, played no part in his suicide. He had not lost in stock market speculation. Several companies, with which he was connected, issued statements showing they were sound.

It was announced that funeral services have been postponed until the return of Mrs. Black from Europe. Mrs. Black was formerly Miss Isabelle May of Washington, D. C., and has been the guest of Lady Athlumney at Summerhill, near Dublin, Ireland.

Churches Ask Boats To Pipe Down As They Pass On Sunday

(International News Service)
MARIETTA, Pa., July 22.—Three churches located near the Susquehanna River here would bar all boats from the river on Sundays if they were to have their way.

Pastors of the Presbyterian, the Reformed and the Episcopal churches appealed to Burgess George Zinc to use influences of his position to stop the boats whistling as they passed Marietta, but the Burgess reported he had no authority.

The noise of the boats, the pastors said, was so loud in fact, it awakened habitual church sleepers.

Burgess Zinc suggested the ministers take their grievances "direct to the boat owners and ask them to throttle down engines and silence whistles while passing here."

Hines Confirmed As New Administrator

(International News Service)
WASHINGTON, July 22.—Brig. Gen. Frank T. Hines was confirmed Monday by the senate as the new administrator of veterans affairs. In his new post, the former director of the veterans bureau becomes administrative head of all veterans activities, including the pension bureau. The nomination was sent to the senate Saturday and reported favorably this morning by the senate finance committee. Confirmation followed without a dissenting voice.

Eugene G. Grace Admits "Bonus" Is Over Million

President Of Bethlehem Steel Admits His Bonus For 1929 Was Over Million

(International News Service)
YOUNGSTOWN, O., July 22.—Eugene G. Grace on Monday admitted from the witness stand in the trial of the injunction suit against the merger of Bethlehem Steel corporation and Youngstown Sheet & Tube company, that his bonus in 1929 as president of Bethlehem totaled \$1,623,000.

Grace testified that his bonus from Bethlehem in 1929 amounted to exactly \$1,623,573 after Judge David G. Jenkins, who is hearing the spectacu-

lar lawsuit, overruled the objections of Bethlehem attorneys to admit the information as evidence.

Judge Jenkins decided that Grace should answer questions regarding the bonus, inasmuch as he had testified previously that his present bonus arrangement with Bethlehem had been held for the last five and one-half years.

The decision was regarded as a victory for the anti-merger attorneys who had battled vociferously for two court days to have Grace's compensation admitted into the court records.

Coffee Run Feud Is Again Before Court

The ancient Lawrence-Zappia squabble in Coffee Run, New Bedford, reached a climax Saturday evening before Justice of the Peace C. I. Zedaker of New Bedford. Mr. and Mrs. Mike Lawrence and Rocco Zappia and his son Joe, were each held over for the Lawrence County Grand Jury, which meets early in September. The four were released on bail of \$500 each.

The frays of the neighbors became so constant officers say that on July 6 the authorities of New Bedford looked into the matter again. This time Officer L. E. Rogers of Pulaski and Deputies McConnell and Knox corralled Rocco Zappia, Joe Zappia, and his wife, Mrs. Mary Zappia. Mary, a daughter of Rocco, Mr. and Mrs. Mike Lawrence and their sons Albert and Joseph.

When the preliminary excitement subsided, Squire Zedaker untangled the complaints and charges as much

as possible and set last Saturday as the night of the hearing. Justice moved with lightning rapidity in the squire's office Saturday. He weeded out the charge, dropping several. One of these was a charge of pointing firearms, made by the Zappias against the Lawrences. Justice of the Peace Zedaker dropped the charge of trespassing lodged by the Zappias. Miss Mary Zappia, who, it is alleged, had threatened Mrs. Lawrence, as a result, charged with surety of peace, was discharged.

Albert, 12 years old, and Joseph 14, sons of the Lawrences, also were discharged.

When the smoke cleared it was discovered that Rocco and his son Joe, were charged with felonious assault, and that Mike Lawrence and his wife Anna, was charged with aggravated assault and battery.

The squire held the quartet on the final charges and made them post bond for the grand jury.

Senator Wagner Requests Senate To Ratify Treaty

(International News Service) WASHINGTON, July 22.—Declaring the London naval treaty was a "sad disillusionment" because it failed to reduce armaments, senator Wagner (D) of New York, Monday afternoon urged its ratification to prevent a growth of ill-will and the seeds of war throughout the world.

The New Yorker opened the closing

debate on the treaty with administration leaders expecting its ratification by Wednesday. A dozen or more reservations must be acted upon before the final vote but the administration predicted all but one would be rejected. The reservation acceptable to the administration would base ratification upon the condition upon the condition that no secret agreement exist between Great Britain, Japan and the United States.

Wagner, while expressing keen disappointment at the outcome of the London conference, said it would be better to ratify than to reject the treaty.

State Ranks Fourth In Reforestation, Department Reports

Trees Planted On 106,153 Acres By Principal Agencies

WASHINGTON, D. C., July 22.—Pennsylvania ranked fourth in the entire country in the amount of forest planting by all the principal agencies engaged in the work of reforestation in the State last year, records just completed by the forest service of the department of agriculture show.

These agencies restored to tree growth in the Keystone State a total of 6,318 acres during the year, which when added to the 99,835 acres reforested in previous years makes a grand total of 106,153 acres restored to date in Pennsylvania.

Reforestation activities in the State in 1929 included the planting of 300 acres by the United States forest service on national forest area; 658 acres by the State government; 60 acres by municipalities; 3,000 acres by farmers; 1,000 acres by mining companies; 800 acres by water and power companies; 200 acres by pulp and paper companies; 60 acres by railroad companies; and 70 acres by schools and colleges.

Forest planting restored to tree growth a total of 111,175 acres in the entire country last year, with Pennsylvania preceding in this respect only by Michigan, New York, and Louisiana, in the order named.

Be There

Bo-Broadway by JOSEPH VAN RAALTE

By Central Press NEW YORK, July 22.—I was talking to Longacre, the other night about a certain restaurant in town and she said:

"The best thing I can say about that place is that the knives there are sharp."

TRIBUTE. Just a little tribute to Joe Schenck who signed off in the Big Show the other day.

Just a vaudeville guy; but for eighteen years he and his sidekick, Van, went about the world making people happy.

And may as much be said at the end for you, and for me.

LIFE WELL SPENT. And another golden bowl was broken, and a silver cord loosened not many days ago. William McAdoo, Chief Magistrate, died, after more than fifty years of service, leaving an estate of "less than \$5,000."

The phrase, "less than \$5,000," is a technical one. I understand the estate was barely less than a tenth of that. Mr. McAdoo had been attorney for his County Board of Health, member of the State Legislature, member of Congress for four terms, Police Commissioner of New York City and Chief City Magistrate for twenty years.

And with that long, honorable record, he died leaving about \$500. As Charles Dickson put it: "Dead ... Right Reverends and Wrong Reverends of every denomination ... And dying thus, about you, every day!"

PARALLEL. The wife of a New York radio executive sued for divorce recently, the burden of her complaint being cruelty. Her husband, she said, made a hell out of their Park Ave. home, by permitting broadcasting celebrities to overrun it.

"My whole life," she said, "became just one bum joke after another." The Duchess read that to me out of a newspaper the other evening and when she finished she laid down the paper and remarked: "Poor woman!" It wasn't so much the words the Duchess used, as the tone in which she uttered them.

If I thought for a moment that

there was anything personal in that tremolo she mustered, I'd ... Well, never mind!

FOR THE MODERN MAN. Haberdashers on the Rue de la Quince are now selling suspenders in sets of six pairs, gray, rose, blue, green, tan and orchid chambray.

Times sure has changed. I can picture what would have happened to me back in the days of my early youth if I'd taken off my coat and revealed a pair of orchid chambray suspenders draped across my Gothic shoulder blades.

Pop, as I remember him best, had a 42-inch chest and wore a 17½ collar. He entertained men wearing lavender, orchid or rose and when occasion required, he would back up those same prejudices with a hairy fist that had a swatting power like a mule's left hind leg, in full bloom.

I write this paragraph with the sleeves of my pastel-tinted shirt rolled well above the elbow ... Nevertheless, I pause to salute the memory of Pop—a he man!

A LION FOR SALE. When the population in the Central Park zoo reaches the crowding point, they hold an auction. They had one the other day and for nearly half an hour an auctioneer stood on an iron railing outside the home of the lions pleading with someone—anyone—in the crowd of 300 around him to bid in Beauty, the lioness, and her two daughters, Geraldine and Eleanor.

Lions seem to be a drug on the market in New York. As Simeon Ford wrote to the circus people, the time a large soiled Asiatic elephant broke loose and strayed into his backyard, lions are "de trop."

FASHIONABLE. With the stock market wobbling along on the thin red line that separates the pathetic from the ridiculous, Park Avenue, it is said, has adopted the slogan: "It's smart to be poor."

It may be true but I haven't observed it. Park Avenue seems to be weathering the storm. The Rolls Raspberry still purrs along that sacrosanct thoroughfare, as formerly; and I have yet to note a single Duchess snoozing around the basement of the Five and Ten.

square, the result of a communication today from District Manager Louis Round.

Round stated in his letter that three 1500-candlepower lights had been installed before the G. A. R. convention here and that they attracted favorable comment.

Today he wrote that he believed the spotlights should be installed permanently and if the city desired them he would rate them as 600 candlepower lights and charge \$65 each.

Councilmen expressed the opinion that two spotlights would be sufficient and it is anticipated that the company will be authorized to make the two spotlights a permanent feature.

CROCODILE JEWEL BOX
Inside a crocodile, 15 feet long, shot by K. Lee Guinness, the racing motorist, in the Gambia river, West Africa, were found eight long rows of beads, which, when worn with a girdle, formed the walking costume of a missing native woman. The huge reptile had also swallowed a pair of silver earrings, a bead of a pattern which had been out of fashion for 150 years, a jam jar and the neck of a bottle.

Sympathy Is Essential To Child

By GARRY C. MYERS, Ph.D.

"Dear Doctor: My son, aged six years, has what I believe is a habit of stuttering. About a year ago he could talk as plainly as any other child, now he has this habit. One doctor said he would get over it, another said to break him of the habit. What do you advise? Would cod liver oil be of any help?"

No doubt cod liver oil would do your boy great good by way of building him up. But wait till cooler weather. Virtually all child doctors say that children need it, except during the summer months. If the child is not a great deal in the sun, especially if without much clothing, with much of the body exposed, the sun's rays do what the cod liver oil is supposed to do.

Better work out with your doctor a good diet schedule and a rest program for the lad. See that he relaxes a couple of hours every day. An afternoon nap should do him great good. For you to take one, too, may help him, making you feel more calm less easily annoyed.

See to it that the boy never gets over-tired. Make him come in from play at least an hour before the evening meal when he must relax, or play quietly. Some quiet stories read to him in the early afternoon or morning during the summer should help calm him down.

You will do most to reduce his stuttering by building him up physically and by cultivating in him a quieter nervous system. No doubt all stuttering in young children is a sign of "nervousness."

Don't stop him or make him repeat after you. Be patient and make him always feel he need not hurry in his speech. Listen to him courteously. Answer all his questions. Never smile or laugh at his mistakes, nor ridicule anything he says. Don't look at his mouth when he is stuttering. If you know the word he wants to say, calmly say it for him, as if nothing unusual were happening. Make him forget himself and feel that all is going well.

Allow no one to say anything concerning his stuttering or to laugh at him. When he is not around per-

suade his playmates to be sympathetic with him.

Avoid excitement and comparison. Train the family to speak in low-pitched, quiet voices. If you have a radio never let it be loud. Turn it off during meals and when the family are in conversation, else all will talk too noisily.

Avoid emotional scenes. Make few commands and don't repeat them. See that he succeeds at something so that he gets his share of well-earned approval. Don't give him undue attention.

Make him feel himself a worthy happy member of the family.

I shall be glad to answer, in these columns, questions addressed to me in care of this paper, provided these questions seem to be of general interest.

If you have a question you would like to have answered personally write me, enclosing a self-addressed, stamped envelope.

Special Trains To Run Over Pennsy

Division Prepares To Handle Heaviest Picnic Throgs Of Summer

Three special trains carrying Pittsburgh and Youngstown picnic throngs to as many different outings will operate over the Erie and Ashabula division of the Pennsylvania railroad during the present week, two on Saturday and another on Sunday morning.

Eight hundred employees of the Pittsburgh general office of the Pennsy; members of the veteran employees' association; and general office employees will arrive in the city at 9:10 next Saturday morning for a day's frolic at Cascade.

Saturday morning another special will go over the division lines bound for Conneaut Lake park, carrying employees of the Superior Steel com-

pany, Pittsburgh. Youngstown Sons of Italy will also travel aboard a special train over E. & A. lines to their outing at Sandusky, O., Sunday, July 27.

Next week's special train traffic, however, officials predict, will mark the heaviest of such movements in a long time. Two outings of the Pennsy's Mutual Beneficial association at Conneaut Lake, set for July 29 and 30, will necessitate 10 specials, five running out of Pittsburgh each day.

National guardsmen of Troop F. will travel to their summer encampment grounds at Mt. Gretna, August 1, aboard two special Pullmans and an express car, P. R. R. officials say. These same cars will return them to the city August 15.

Man Goes Into Field, Suicides

(International News Service)

WILKES-BARRE, Pa., July 22.—The bodies of two men, one as yet unidentified, were found in this vicinity Monday.

With a bullet hole behind the right ear, the body of Silvio Camanella, 40, of Plains, near here, was found in a field not far from his home. A revolver at his side convinced police, they said, that he had taken his own life.

An investigation revealed Camanella figured in an automobile accident two weeks ago and that it had preyed upon his mind.

The second body was that of a man approximately 50 years old, discovered along the Laurel Line tracks. It was believed he was struck and fatally injured by a train running between Wilkes-Barre and Scranton.

ROUGHAGE IN DIET NEEDED IN REDUCING

Kellogg's ALL-BRAN Eliminates Danger

Are you one of those who are reducing by diet? If so, there is one important thing you should know—diets that do not include roughage cause constipation, often with serious consequences. Guard against it!

Kellogg's ALL-BRAN contains the roughage needed to insure regular elimination. It is guaranteed to relieve both temporary and recurring constipation or your money will be refunded. Two tablespoons daily—in serious cases, with each meal.

Kellogg's ALL-BRAN is not fattening. But it does add valuable iron to the blood which helps prevent anemia (another dieting danger) and bring a glowing, healthy color to the complexion.

You can enjoy Kellogg's ALL-BRAN in many delightful ways. As a ready-to-eat cereal with milk, honey, sprinkled over cereals and salads, in soups and soaked in fruit juices. It is appetizing in cooked foods. Your grocer has Kellogg's ALL-BRAN in the red-and-green package. Made by Kellogg in Battle Creek.

Coach Line Employees Will Be Feted After Establishing Record

Officials Of Penn-Ohio Lines Will Address Operators In Parkman

The best safety record ever established by the Pennsylvania coach lines, which hold national safety records, was made in the first six months of this year.

In that period, ended June 30, 90 per cent of the operators made records entirely free from responsibility for accidents. That is 30 out of the 33 operators on the interurban coach lines connecting Youngstown, New Castle, Sharon, Greenville, Niles, Warren, Akron, Cleveland and intermediate points were responsible for no accidents.

In recognition of the safety record a banquet will be given tonight for the operators and their wives.

The banquet will be served in the Community Hall at Parkman, O. R. N. Graham manager of the transportation system, will preside as toastmaster and addresses will be made by C. S. MacCalla, P. O. vice President and general manager and C. C. Hadden, chief engineer of the Bureau of Maintenance of Highways of Ohio.

Television Patent Rights Granted By Radio Corporation

(International News Service)

New York, July 22.—Heralded today as a "new open door policy" in the development of radio and television, the Radio Corporation of America has announced that it will extend to its licensees the patent rights on television apparatus and many radio improvements.

The new licenses will permit those who hold manufacturers' receiver licenses granted by the radio corporation of America to manufacture and sell pictures and talking pictures for use in homes. Use of the super-heterodyne principle in radio telephone broadcast receivers and other types of receiver circuits is thrown open to 32 manufacturers.

Although television in the home is not yet practicable, the release of patent rights will aid in development of the art, it is believed.

Jail Wouldn't Be So Hot At That!

(International News Service)

AMBRIDGE, Pa., July 22.—Enter the exception to the rule: exit the accepted adage.

The warden at the Beaver County jail, never surprised at the oddness of some requests he receives was startled when Daniel Jackson, a youth of Alliquippa, south of here, walked up to him, handed the astonished warden commitment papers and asked if he might begin his sentence immediately.

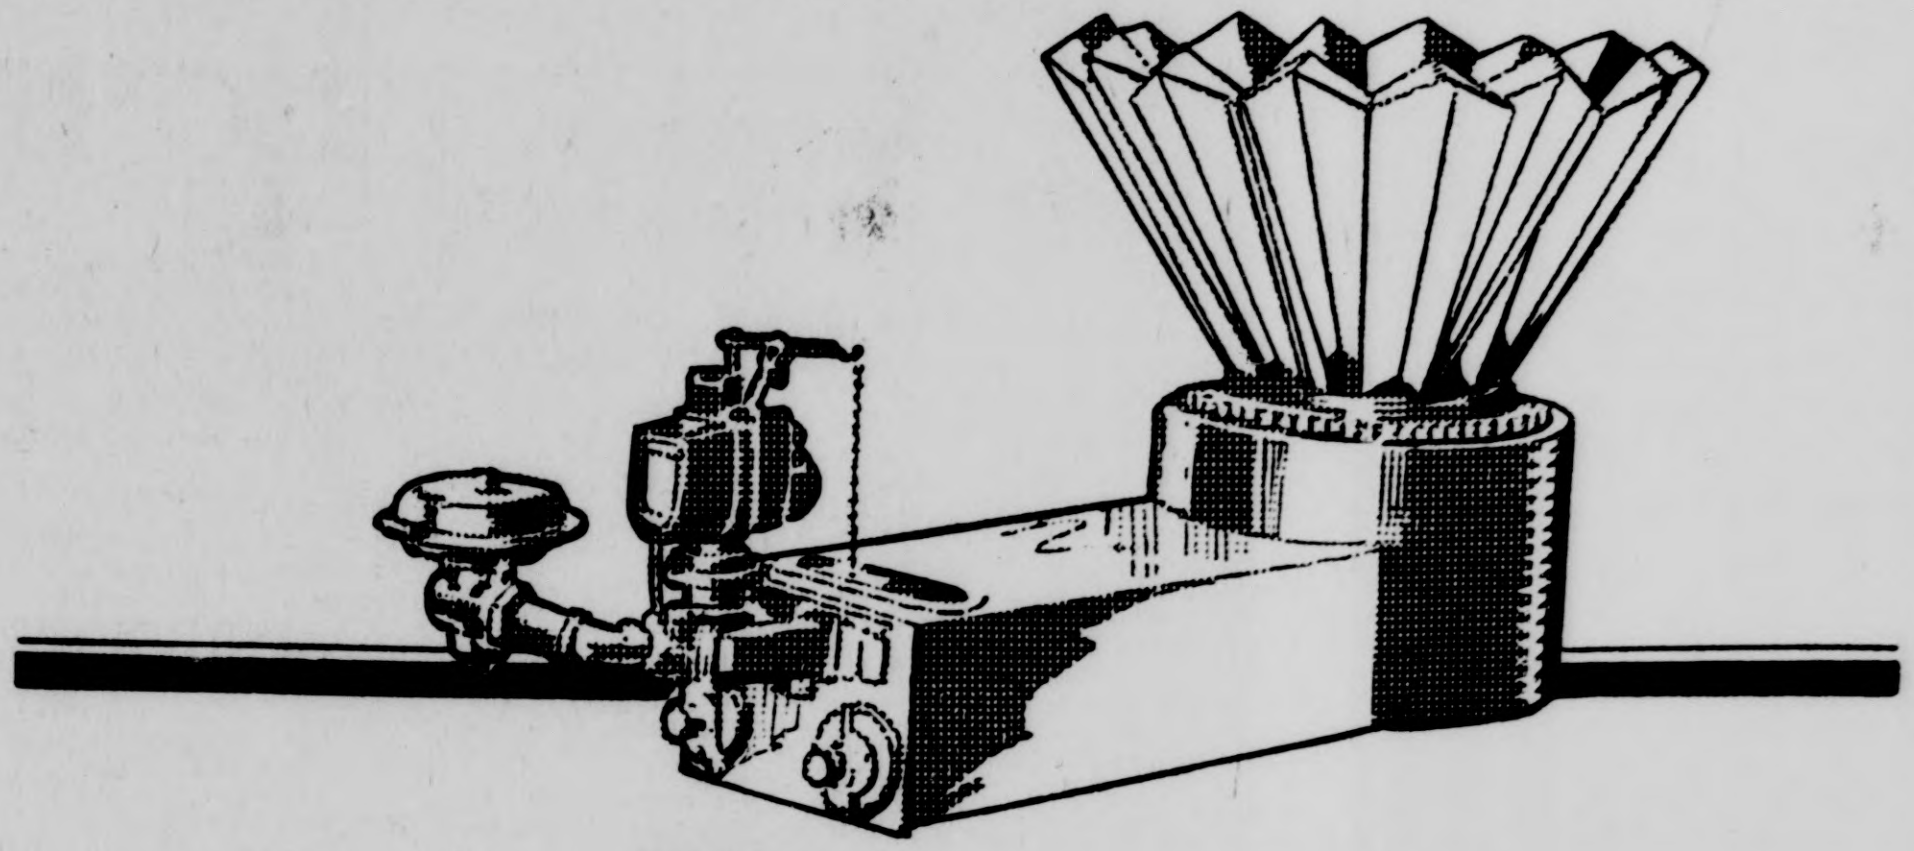

Jackish was arrested recently by the State Highway Patrol, for driving with glaring headlights. Quitting his work early in the afternoon, he appeared before Justice J. V. Lewis here waived his hearing scheduled for that evening and requested the Squire to make out commitment papers.

"I didn't have any money, so there was nothing to do but take a jail sentence and the sooner it is over the better" was the comment he made as the warden personally escorted him to his cell.

This gas burner makes your coal furnace an automatic heating plant... at a very low cost

YOUR heating labors and worries are over... the drudgery, dirt and annoyances of hand fired methods are shadows of the past when your coal furnace is converted into an automatic gas heating plant by the Surface Combustion Gas Burner.

The change can be made in a few hours' time without any bother or inconvenience to you and without changing your present heating system. And the job is guaranteed to operate to your complete satisfaction.

Save 10% Now

SO LOW is the cost of equipment and so liberal is the two-year payment plan that any family who can afford a good washing machine or a first class radio can enjoy the comfort and convenience of automatic gas heat and never miss the small payments!

You can save 10% on the completely installed job by ordering the burner in now. See details and payment plan below.

Estimate Free

IF YOU are at all interested in automatic heating, if you would like to free the family of the nuisance and hardship of old fashioned methods, if Winter time health protection means anything to you, we suggest you send for one of our heating men to explain the costs and benefits of gas heat.

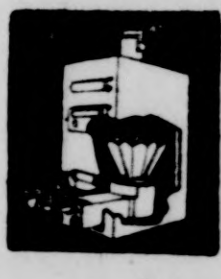

Please do not feel obligated—our Heating Man's mission is to be of service in acquainting you with just how automatic gas heat will work out in your home. He will examine your present heating system, compute its efficiency, measure up the heat requirements

Summer Heat all Winter

Fits any coal furnace

Finger tip control

for the type of your house construction, and then supply you with a reliable estimate of your season's fuel bill.

His estimate will not be a guess, but a reasonably accurate forecast of your complete heating costs arrived at by engineering methods and the records of the United States Weather Bureau covering normal weather conditions. Experience of most users is that their gas bills are less than the estimate.

No Hidden Costs

YOU probably will be agreeably surprised at the relatively low cost of this ideal form of automatic heating. In many instances you will find the fuel cost of gas less than the cost of other fuels. And where the estimate on gas may be a little more, remember that there are no hidden costs to gas heat.

With gas you pay nothing for delivery, nothing for putting the fuel in the cellar, nothing for ash removal, nothing for furnace cleaning, far less for housecleaning, drapery, carpet and furniture renovating. Wall paper and decoration expense is much lower with gas and you do not have to pay for the gas until after you have used it.

And still you can enjoy all these savings of gas heat, and at the same time be free of all heating bother, furnace coddling and grumpy stoking. Gas heat is completely automatic.

If your freedom is worth anything to you at all, we feel you won't go through another winter of annoyance and downright slavery when you learn how little gas heat costs. Why NOT telephone the Gas Office now?

Council Cloaks Treser With Power

Can Fix Avenue Storm And Also Improve Other Sewer Conditions

City council Monday voted authority to Councilman Treser to allow Carmel Glover, head of the department of sewers, to continue the repair of the Rural avenue storm sewer and to also repair other sewers which need it, in the city. Friday Controller Greer informed council he would refuse to honor bills for materials as he had been informed that the work was considered "new". Today Treser told council that the

sewer had broken 15 feet beneath the cartway and also at the outlet into the stream and there was nothing left but to repair it and to install a concrete manhole. "When you view this you will be fully satisfied," Treser said. "I think it is a wonderful job," said Reeves.

"After it is finished we will all say it is O. K.," remarked Genkinger.

Burns presented a motion giving the department of streets superintendent authority to vest in Glover and the work will now continue.

Treser reported also that there is a leak in a sewer which starts in Arlington, travels through Cunningham ham avenue and runs to Grimes street, Belmont avenue and other south side thoroughfares.

He says it connects with the Lyndal street sewer and that when the work was done it was a "tunnel affair" and the timber rotted out with the consequence that there are leaks in

Long avenue, Belmont avenue and Grimes street.

Council voted the authority for this improvement too.

Anti-Mergerists Are Heartened By Bonus Revelation

Opponents To Recent Sheet
& Tube Bethlehem Mer-
ger Resume Fight
Today

PURNELL DENIES BONUS KNOWLEDGE

(International News Service)
YOUNGSTOWN, O., July 22.—En-
couraged by a highly triumphant day
in court, attorneys opposing the con-
solidation of Youngstown Sheet &
Tube company with Bethlehem Steel
corporation today planned to press
their fight for details of the merger
negotiations.

The trial of the Cyrus S. Eaton-
inspired injunction suit against the
merger reached a high point yester-
day with two revelations which were
regarded by anti-mergerists as im-
portant in their case.

One was the divulgence of Eugene
G. Grace, Bethlehem president, that
he received \$1,623,753 in bonuses dur-
ing 1929, and a total of \$5,431,684 in
the five and a half years from Janu-
ary 1, 1925 to June 30, 1930.

The other was the admission of
Frank Purnell, president of Sheet &
Tube, that neither he nor the direc-
tors of his company knew the amount
of bonus Bethlehem paid its execu-

tives at the time Sheet & Tube direc-
tors voted to merge with Bethlehem.
Grace's compensation was admitted
to the court records after a bitter
two-day court struggle between op-
posing attorneys. Bethlehem counsels
fought strenuously to keep Grace's
bonus out of the testimony and the
anti-merger attorneys fought vigor-
ously—and successfully—to have it
recorded.

Denies Bonus Knowledge
Purnell denied knowledge of the
Bethlehem bonus figures in answer
to questions asked by Judge G. Jen-
kins, who called the Sheet & Tube
executives as his own witness.

Judge Jenkins questioned Purnell
closely regarding both the figures the
Sheet & Tube executive had testified
previously he had worked out for use
in the merger negotiations, and the
report of price, Waterhouse & com-
pany, which Purnell said he had with
him at the Sheet & Tube directors
meeting March 12 when the merger
was approved.

Neither of these reports, Purnell
testified, contained information re-
garding the Bethlehem bonus system.
And in answer to a direct question
put by the judge, Purnell admitted
that "directors of the Sheet & Tube
company, in acting on the merger,
had no figures at all on the bonus
plan."

No Argument
Grace testified earlier as to the de-
tails of the Bethlehem bonus system.
He said that there had been no
change in the percentage of his par-
ticipation in the Bethlehem fund for
executives since 1925, and he ex-
plained that the percentage of distri-
bution to him was 3.319, working up
from the factor of 1 1/2 on the sliding
scale basis.

Questioned by his own counsel,
Grace declared that he had no agree-
ment of any kind with Pickands,
Mather & company or anyone else
whereby Bethlehem would reimburse
them for losses sustained in Sheet &
Tube stock purchases during the
"battles of proxies" before the Sheet
& Tube stockholders' vote on the mer-
ger. He also declared that he owned
no Sheet & Tube stock and that he
had never entered any pools for the
purchase of any.

Married Women Are Dropped By School Board

Union Township Controversy
Over Their Election Is
Finally Settled

Controversy over the employment
of married women as teachers in the
Union township schools, which has
held up the election of a number of
teachers for some time, has finally
been settled, by dropping all married
teachers from the list.

Heretofore Union township has em-
ployed married women as teachers for
many years. Last year there were
seven married teachers, all capable,
but this year opposition to the em-
ployment of any married teachers, no
matter how capable, developed, with
the result that all have been elimin-
ated.

Vacancies were filled Monday eve-
ning and the following complete list
of teachers for the ensuing school
year has been filed at the office of

Need For Troop Armory Again Stressed Here

What price armory?

Once again First Lieut. Harvey Bintrim and members of New Castle's track Troop F of the 103rd Cavalry, Pennsylvania National Guard, are reviving the question that has irked the guardsmen for years. At this time, when the date approaches near for the annual two weeks drill period at Mount Gretna, the guardsmen are talking of getting the state to build an armory in New Castle.

The troop personnel, long hoping for action by state authorities, is now aroused to the necessity of an armory here. They declare that the proposal by them for a \$100,000 building is not a wild dream and that with the cooperation of a few citizens and city officials state authorities would sanction the project. On Tuesday evening the commander of Troop F, First Lieut. Bintrim declared that the proposal for a building is now a plan of the organization and that he was making extensive preparations to push the improvement plan as much as possible. It is his belief that the state, long accustomed to grant armories to smaller communities will eventually listen to appeals from New Castle.

The commander said in such towns like Butler, Grove City and other nearby places, armories have been built after pressure had been exerted by civic minded citizens. In Butler the estimate building is \$40,000 and the estimated value of the land is \$17,000. Grove City has a building valued at \$60,000 on grounds whose estimated value is \$15,000.

An armory, Lieut. Bintrim said, is a great asset to any community. Appropriations by the state for armories is an economic investment for funds, a tangible asset for the money goes into real estate, still the property of the Commonwealth as against other appropriations that go elsewhere and are eaten up with no lasting return. An armory building becomes public property. It not only stimulates troop spirit, but serves the community for public services. The armory becomes a mecca for all local large gatherings, since its dedication is for the public welfare. Some armories are complete with a kitchen, small arms range for target work, showers, club rooms and locker rooms. The procedure and requirements needed before any city can obtain a building for military purposes were outlined by the commander as follows:

A good military organization supported by the city.

City, county, or private citizens must donate a site and turn over the title to the state.

Appearance before the state armory board of representatives of the local community for an appropriation to build the armory.

With the foregoing plan followed, it would be easy for New Castle to obtain an improvement project which would add to the civic progress of the city and also provide work for unemployed.

Upon investigation of suitable sites for an armory here, Troop F has

found the following locations owned by the city as suitable.

Ground on Sampson street, Cunningham woods.

One other ideal lot.

Need But 3 Acres

Only three acres are needed Lieut. Bintrim declared.

To carry out their program of meeting some of the requirements for an armory building, the troop is now engaged in a campaign to obtain 15 members to fill the allotted roster of 75 guardsmen.

The Armory Board of Pennsylvania consists of Adj. Gen. Frank D. Beary, president. General Albert J. Logan, treasurer. Ben W. Demming, secretary. Brig. Gen. Edward Martin, Maj. Gen. William G. Price Jr., Col. Stephen Elliott and Col. Robert M. Vail.

The present headquarters of the troop are inadequate the organization is housed in the old Garden dance hall on Neshannock Ave., where it moved in 1927. Before that time the troop drilled in the Euwer building on the same street.

How large issues of securities are purchased, set up and marketed, will be the predominating keynote of the address which E. R. Miller, Sharon business man will make before the Kiwanis club at the Elks club, Wednesday.

Mr. Miller is coming under the auspices of the club's public affairs committee, of which A. R. Kingsbury is chairman.

Final arrangements for the outing of members of the club and their families at Camp John Phillips, scout camp, on Thursday evening have been prepared. It is announced. The Kiwanians will motor to the camp late in the afternoon and set down to dinner at 6:30. A program of entertainment will follow.

Chicken Thefts Are Investigated

County and state authorities yesterday investigated complaints of farmers in the northern part of the county, who sent word to the district attorney's office that chicken thieves had been active near their farms.

A. S. Leslie of the district attorney's office and Private J. Gondell of the State Police visited James Black and Andrew Hartman, farmers of Washington township, near Volant.

While no theft was discovered, it developed that one of the complaining farmers said vandals had tried to quiet a watch dog by throwing stones at the animal.

South Side Merchants Close Wednesday Noon

It was announced today by Hartzell Houston, secretary of the South Side Board of Trade that the merchants of the South Side will close some at noon and some before 2:00 o'clock on Wednesday for the merchants picnic which will take place at Cascade Park.

He also stated that he would appreciate it much if the merchants would all co-operate and close their stores on Wednesday afternoon.

Says Wife And Children Taken Asks \$25,000

Pavel Neagu Alleges Conspiracy To Wreck His Home In Suit Filed Here

ROMANCE BEGAN IN FAR AWAY ROUMANIA

Alleging that his wife was induced to leave his home in Cleveland and go to that of friends in Ellwood City, taking their two children with her, Pavel Neagu has filed a suit at the prothonotary's office in which he asks \$25,000 damages from Nicolae Dalgae, Solomia Dalgae, Maria Daniel and Dan Mayer.

In his statement of claim Neagu says that he was married in Roumania on May 8, 1927, and brought his wife to Cleveland, O., in the following September. Two children, both daughters were born to them.

In March, 1930, Pavel alleges that defendants, Nicolae Dalgae, George Daniel and Dan Mayer, conspired with Solomia Dalgae, and his sister, Marie Daniel, and that as a result of such conspiracy they came to his home at 1313 West 65th street during his absence and induced his wife to leave. She took the two children and went to the Dalgae home in Ellwood City. Pavel says that he followed his wife within a few days and induced her to come back home.

She remained until June 9 when as a result of efforts of the defendants she was again induced to come to Ellwood City. Pavel came after her again but she refused to accompany him home.

Pavel claims that up until the interventions of the defendant he and his wife had lived happily together. He says that he now suffers untold agony on account of his wife's leaving. He blames his misery on defendants.

Not Long Until Girl Scouts Camp

Councillors Are Planning For Two Weeks Period At Rentz Y. M. C. A. Camp

Girl Scout director, leaders and camp councillors are making plans for the annual Girl Scout encampment at the Fred Rentz Y. M. C. A. camp from August 5 to August 19.

It is believed by the director, Miss Nance Pugh, that one hundred Girl Scouts will occupy the camp during this year's camp period. A program of activities is being arranged and the camp period promises to be one of unparalleled enjoyment.

On Monday, August 4, the camp councillors will go to the camp for the purpose of making last minute arrangements and getting acquainted with each other. The scouts will arrive Tuesday morning, August 5 and the two weeks of activities will formally start in the afternoon of that day.

Several of the councillors have inspected the camp grounds already in order that they will have a better idea of what preparations to make. Miss Pugh is at her office every day taking registrations. There are still some places for additional campers.

The meeting, which is held under the auspices of the Lawrence County Agricultural Extension Association, promises to be beneficial and interesting especially to farm owners who raise barley.

New P. R. R. Yard Opens At Girard

Division Officials Here Make Final Inspection Of Work On Monday

Actual operation of a new yard along the Pennsylvania railroad's right-of-way at what was formerly known as Mosler, now called Girard, commenced Monday. Superintendent H. T. Frushour, Division Engineer C. W. Van Nort and Trainmaster F. J. Perry of the local office were present and made a final inspection.

Officials say the new yard will allow more flexible operations of trains in that area inasmuch as main passenger tracks now skirt both sides of the yards instead of running through the center. Under the new plan the hazardous work of workmen has been practically eliminated, permitting yard engines to work to advantage without being interfered with by regular passenger trains.

New Castle Dry Goods Employees Picnic Tomorrow

Store To Close Early For Workers' Annual Outing At Lakewood Beach

Work will be forgotten temporarily by employees of the New Castle Dry Goods Company, Wednesday afternoon, when they forsake their counters and office desks to take part in their 16th annual outing at Lakewood Beach.

Officials announced this morning that the store will close for the day at 12:30 p. m.

Special buses will convey the picnic throngs to the beach, where dinner will be served immediately on arrival. For the afternoon there will be a program of sports under Chairman Jack Huston's direction, dancing and a water carnival. Supper will also be served in the evening.

For 15 years the New Castle Dry Goods firm has closed its store for a half day during the summer to fete the clerks and office employees, although yearly outings have been held much longer than that. Prior to 1914 picnics were held after store hours.

New Anti-Pain Oil Works Wonders

Takes the Crick Out of Your Neck, the Sharp Shooting Pains Out of The Shoulders-In a Few Minutes.

This new discovery is a combination of eucalyptus together with essential oils, turpentine-Camphor, Capsicum and other valuable ingredients that is now being offered the public under the name of "Anti-Pain Oil," formerly known as Snake Oil. It has proved to be an effective, agreeable remedy for aches and pains, chest colds, flu, coughs, etc. Thousands of sufferers are now being relieved by this new penetrating oil liniment.

For rheumatic pains, neuralgia, crick in the neck, sharp shooting pains in the shoulder, stiff joints and sore muscles, apply freely to affected parts. The oil quickly penetrates, bringing relief almost like magic. For chest colds, flu and sore throat, apply freely to affected parts, well greased with vasoline or lard. For coughs or hoarseness take ten drops on a lump of sugar.

Don't continue to suffer longer. Use this new and improved remedy, perfected after years of research and experimental work, instead of poisonous habit forming drugs. You will then know what it means to be free from pain.

Refuse imitations. Nothing like this new Anti-Pain Oil formerly known as Snake Oil. Special introductory generous size bottle for 70c. Now being sold and introduced by Eckerd's of New Castle, Inc.

Sixteen Planes Remain In Derby

Sixteen Planes Poised At
Roosevelt Field For
Flight To Cincinnati

TWO PLANES ARE
FORCED TO QUIT

(International News Service)
NEW YORK, July 22.—Like gigantic birds 16 planes were poised at Roosevelt Field today waiting for the signal to hop off on another leg of the All-American air derby.

The flight today is to take the planes to Cincinnati, 600 miles away. From there they go to Little Rock, Houston, San Angelo, Texas, Douglas, Ariz., Los Angeles, Ogden, Lincoln, Chicago and back to Detroit, where the 5,520 air jaunt started yesterday. Roaring into New York from Buffalo at the rate of 200 miles an hour, Lee Gehlbach of Little Rock, won the second leg of the derby and he also captured the first lap of the race, from Detroit to Buffalo.

Harvey Mummet of Hammondsport, N. Y., crashed at Kingsley, Pa., but was uninjured, although put out of the race. Edgar Todd of Pueblo, Colo., got off the course and came down at Norwich, Conn. He hoped to join the flyers here today before the hop.

Second best time was made by James Wedell of New Orleans for the derby to date and Herman Hamer of La Salle, Ill., is in third place. First prize of \$15,000, second \$7,000 and third \$3,000 are the awards.

Air Mail Pilot Killed As
Plane Falls In Ohio

(International News Service)

HURON, O., July 22.—William Frederick Martin, 26 of Pontiac, Mich., was killed today when his Cleveland-to-Bay City, Mich., air mail plane crashed on a farm two miles west of here.

A thick, murky fog which was hanging over the region was believed to have been responsible for the accident. The wrecked plane and its dead pilot were found by George Beatty on whose farm the crash occurred.

Martin's body was seriously mutilated in the crash. It was so tightly wedged in the plane's wreckage that rescuers were forced to use an automobile to loosen the wreckage and extricate the body.

The pilot's neck and both arms and legs were broken, and his chest was crushed.

Members of the New Castle Phalanx fraternity will assemble at the Y. M. C. A. on Wednesday evening for another of their summer business meetings. Dinner at 6:30 will precede the customary program.

It is important that a large representation of the membership be present inasmuch as several matters will be considered. Plans will be made for sending 50 Scouts street youths to Camp Fred L. Rentz, "Y" camp along the Slippery Rock. The fraternity underwrites a large share of their expense.

"NO MEDICINE IN WORLD COMPARES WITH KONJOLA"

So Says Lancaster Man Whom
New Medicine Freed From
Rheumatism And Neuritis.

What cheerful, encouraging news is the fact that day after day, wherever Konjola is known, new friends are won through the triumphs of this modern compound of 32 ingredients, 22 of them the juices of roots and herbs. Read what Mr. Leonard Gerlach, 427 South Christian street, Lancaster, Pa., says:

"After my experience there is no medicine in the world to compare with Konjola. I had rheumatism and neuritis in my hips and shoulders for two years. I could scarcely walk, and at night I rolled and tossed in pain. My stomach, too, gave me trouble, and all that I ate formed gas and lay like a rock in my stomach. But after taking the second bottle of Konjola I felt a wonderful change come over my entire system. I have now taken six bottles, and every morning I get up full of energy and ready for a day's work. All this good health I owe to Konjola."

Isn't this the kind of medicine you want? One that triumphs even when all else tried has failed? Remember that seven million bottles of Konjola were used in two years. Konjola is sold by Love & Megown, the Druggists, 204 E. Washington St., this city.

The Health O-REN-DA Has Given Me

Kernersville Lady Believed Her
Case Hopeless But New and
Different Medicine Came
to Her Rescue.

MRS. H. T. CARSON

Yet there is no mystery, no magic secret about it when one knows that O-REN-DA is made from the prescription of three nationally known physicians. It is designed to go to the very source of the trouble, namely constipation, stomach troubles, kidneys and liver. Read what Mrs. H. T. Carson says regarding this wonderful medicine. I had suffered a nervous breakdown and could hardly eat or sleep, could not really enjoy either food or living. I heard from some neighbors the wonderful results obtained from using O-REN-DA. I tried it and am convinced that it is all and more than you claim for it the master medicine. The O-REN-DA man is daily explaining this new and different medicine at Love & Megown's, 204 East Washington street, New Castle, Pa.

Thermometer Registers 110°, Children Ice-Skate And Throw Snow-Balls

ELLWOOD CITY, July 22. — "No use tellin' the kids, they jest won't believe us anyway," it was the age of wisdom speaking in little David Morrison, as he scooped up a handful of glistening snow and forming a perfect snow-ball pelted his brother Gail. Here they were, in the cutting room of the Ellwood Ice Factory where the air registered very cold and great cakes of ice waited to be cut and weighed before being delivered to the Ellwood and Zelazny customers.

The boys had just come into the building from the scorching sun outside where the thermometer registered 110° and the cold of zero weather was upon them.

"Gee," this time it was Gail, the spokesman, who had entered the storage room, where the temperature is kept at an even zero. "Jes watch me skate," and with that he gave a little run and slide—how he did slide—and what fun those kids did have.

"We're jes like Mr. Byrd, only we don't have on fur caps," was Gail's next spoken thought. "Jest think how much fun he and the boy scout musta had with snow-ball fights."

The boys failed to register belief when their mother insisted that they wear shoes, on account of catching cold. But when they arrived at the ice factory they were glad and even suggested that a sweater might not be uncomfortable.

There remains a doubt in the mind of their escort that the children really learned just how ice was made, although the whole process was carefully explained by an obliging employee.

He explained how the ammonia was made into compressed air for the churning the clear water placed in the cans which were setting on the salt water on the second floor.

The entire second floor is underlaid with 560 blocks of ice, when frozen after 48 hours, weigh exactly 300 pounds. This is 40 tons of ice when finished.

The scoring machine makes the ice free from any sediment and later it is cut into blocks weighing 25, 50 and 100 pounds each for delivery.

The storage room when filled on Saturday, had exactly 800 blocks of ice in it, weighing 300 pounds each, giving a total of 240,000 pounds. Ice can be kept in this room for three weeks and still be in the same perfect condition that it was in at first.

Ellwood people complained about the heat yesterday, and many of them did nothing about it, while a group of young people decided that they should find and did find the coolest spot, right on Eighth street and Factory avenue.

At the opening of the English race meet at Ascot, Mrs. Fernie appeared wearing this blue and white creation with flower decorated parasol.

No One Hurt When Car Slides Down Thirty Foot Bank

ELLWOOD CITY, July 22.—It had been a miraculous escape. Hundreds of people grouped about the wrecking car which with the aid of five men, 30 feet below, only succeeded in bringing the car owned by Dr. Harry Davis back to the highway after 8½ hours of hard labor.

Yesterday morning Mr. Davis, in answer to a call in Wurttemberg, was driving in that direction when his left front wheel was in some way caught onto the rear wheel of the car driven by Miss Frances Mehard on her way to Ellwood.

The accident occurred on the Ellwood-Wurttemberg road between the Ewing park bridge and Burnstown. The car in which Dr. Davis rode was caught in the rail of the street car track where it was tossed by the impact, the rear wheel was torn off and the car slid down the 30-foot embankment.

Miss Mehard's car, in the meantime had spun to the side of the road where it was stopped by a "stop" sign, which the car knocked down.

Brothers Fall With Scaffold, In Hospital

ELLWOOD CITY, July 22.—Creighton and Calvin Cole, brothers are in the Ellwood City hospital. They were rushed there when their scaffold at the Park Gate school house which they were painting broke yesterday afternoon, letting them fall a distance of more than 15 feet.

Creighton is suffering from a dislocated ankle and a number of lacerations. The exact form of Calvin's injuries have not been determined.

D. K. Cole, their father, has been contracted to paint the school house and was being assisted by his sons.

Girl Scout Council Plans For Camp Hut

ELLWOOD CITY, July 22.—Ellwood City Girl Scouts are to have a camp hut, within hiking distance from Ellwood City. This much and more was decided at the special meeting of the Girl Scout council at the home of Miss Carrie Hazen of Spring avenue, last night.

A number of reports on camp sites were received at the meeting, and were turned over to the site committee to investigate. After making their choice, they plan to hold a picnic at this site Thursday July 31 to give all council members a chance to decide upon it as a desirable location.

Some interesting sketches for the hut have been drawn by Byron J. McCandless, architect as a courtesy, to the organization.

The project of just such a hut would be a permanent week end camping quarters for the scout hikers.

Local Relatives Mourn Death Of Chicago Man

ELLWOOD CITY, July 22.—While Ellwood people read in the daily papers of the many casualties caused by the terrific heat of the last few days, many Ellwood friends and relatives of Irwin Hazen, aged 27 of Chicago, mourn his untimely death, due to cerebral congestion, the result of intense heat, Sunday July 13.

Irwin Hazen, an uncle of the deceased, has just returned from the funeral which was most impressive as conducted by the Masonic order. At the cemetery, a military salute was fired and a number of floral tributes were dropped from an airplane, in memory of his school military fraternity.

The deceased was born in Chicago and attended school in Austin as well as the St. John's Military academy, and later graduated from North Western University where he was a member of the Sigma Chi fraternity and an honorary member of the military fraternity.

For a number of years the deceased was associated with Dr. John Dill Robertson, when the latter was president of the Chicago Park commissioners.

As Dr. Robertson's assistant, he also supervised the construction of Austin Town Hall and other building and roadways of the ten million dollar improvement program, carried out by the Robertson administration.

He was a speaker of exceptional ability for one so young and had an important part in the campaign for construction of the elevated highway on the west side of Chicago.

Irwin Jr. was the only son of Judge Irwin R. Hazen and Mrs. Hazen of Chicago. Judge Hazen is well known here, having been born on the Hazen farm near Frisco.

Kiwanians Dine At Scout Camp

ELLWOOD CITY, July 22.—A dinner served by women at Camp Phillips was enjoyed by thirty members of the Ellwood City Kiwanis club instead of their regular dinner meeting in the church last night. Dr. H. S. Gold, chairman of the Boy Scout committee, and a member of the board arranged the dinner and included two interesting addresses at last night's program.

Dr. W. C. Wallace, of New Wilmington and county executive, Mr. Horton, were both presented and addressed the local club on the endeavor of men in this work. The club men who are sponsoring two of Ellwood's scout troops were more than interested and took keen delight in being shown the camp, some of them waiting at the camp long enough for a swim.

ELLWOOD CITY, July 22.—A poverty social and steak fry was enjoyed at the J. A. Nye estate near the Ellwood Country Club last night.

Miss Dorothy Nye was hostess for the party, arranged by the Young People's Society of the Providence Baptist church.

Others assisting were Miss Agnes Swartz and Miss Vesta Householder.

Ellwin Hazen dressed to represent a colored "dandy" out of funds won the prize for best costume.

ATTEND REUNION

ELLWOOD CITY, July 22.—Rev. John A. King and family of First avenue plan to attend the Rodemeyer reunion at the home of Mrs. Carrie Farringer of Sharon, Saturday, July 26.

SUMMER HOT AIR and some'r plain facts

ELLWOOD CITY, July 22.—A story of someone having a dream about soup recently, reminds me of the one I had Saturday night. Any news reporter knows just how hard it is to glean news these days. Well my "news" trouble (along with a glass of buttermilk and gingerale) is believed responsible for this one: My brother had been shot and after plucking the beebie from his chest I exclaimed that I had a claw as to the guilty one. This made my brother very angry with me, as I exclaimed in afterthought, "I wonder now—just what would make a good lead for the first paragraph, etc." Brother accused me of framing the shooting in order that I might have a story for my paper. There was just one hitch in this perfectly plausible feature, the party that I had framed only shot bullets and my brother had plucked a beebie. That is mystery for you, and really, I don't know whether or not I framed this shooting. It remains unsolved in my mind.

And now that we have broken the ice and have thrown snowballs all afternoon, it might be interesting to know just what some of Ellwood's elite are doing to remain cool. There is one, a doctor's family, who entertained their company by sitting on the dining room floor all Sunday afternoon. Then there is one young woman who got up about 4 o'clock Monday morning to get the baby a bottle of milk. It was so cool that she decided to stay up and do the supper dishes.

Seven Calls Are Received Monday By Local Firemen

Damage In Most Instances Is Negligible; Near Record Is Set For July

REFUSE TO ANSWER CALL IN TOWNSHIP

Chief Lynn Feels Unjustified In Endangering Equipment At Fireworks Plant

While firemen are ordinarily not busy during the month of July, they were kept on the jump here yesterday when seven alarms were received during the day. No serious damage resulted from any of the blazes.

The first alarm was answered at 11:20 yesterday morning when an alarm was called in by Boyles and Millison at the corner of White and South Mill street, where a small fire occurred in one of their trucks. Fireman Malley, who answered the phone, understood the blaze was at the Love Coal Company at Mill and Division streets and firemen responding there found no blaze. Proceeding up Mill street, they were informed the blaze had been at Boyles and Millison and had been extinguished.

Early in the afternoon they were called to the store of Mrs. L. G. Humphries, where a lighted cigar or cigarette butt is believed to have been tossed onto the roof from the Y. M. C. A. Employees of the Haney Furniture Co. called Chief Lynn, and after investigating he turned in an alarm from box 16. Damage of approximately \$75 resulted at this fire.

An alarm was sounded from box 212 at 4:10, summoning firemen to 428 Boyles avenue, where children playing in the garage of J. Kulkin set fire to a pile of straw in the bed of a truck. John M. Dix backed the truck from the garage and prevented the garage from taking fire. The blaze in the straw scorched the bed of the truck and No. 2 firemen extinguished the blaze with hand extinguishers.

At 3:25 a call was received from 1011 Butler avenue, where children playing in the rear of the store of Alfredo Grozino set fire to some rubbish in a barrel in the rear of the store. Mrs. Grozino had the fire about extinguished with a garden hose when firemen arrived from No. 3 and 4 departments.

Refuse Assistance
At 6:40 a call was received from box 42, a short circuit in the wiring of a car owned by Reese Flannery, caused by dropping a screw driver across the wiring, ignited grease and oil about the engine. It was smothered out with rags before firemen arrived.

At 10:30 firemen received a call from residents near the plant of the Pennsylvania Fire Works Co., in Union township, where one of the buildings burned following an explosion, settling fire to grass about the building. It was feared that it would communicate to adjoining magazines, some of which contained high explosives. As the blaze was outside the city and the firemen could render but little assistance after arriving on the scene, firemen did not answer. Chief Lynn stated that he did not deem it advisable to endanger the B truck, the only equipment available for fighting a grass fire. The truck cost the city \$12,000 and it would have been a severe loss had an explosion occurred and wrecked the machine, as it would have been necessary to drive the truck between the burning grass and the magazines endangered to render any assistance.

Another alarm was answered during the afternoon at the plant of the Johnson Bronze Co., where sparks from a rubbish fire had set fire to some old lumber and discarded patterns. Little damage resulted.

While no attempt was made to look back over the records, it is believed that the number of alarms set a record for a day in July, as there are seldom more than two or three alarms answered during a day at the most at this time of the year.

Jack James Catches 21 Pigeons, Snake

Jack James, dog fancier, water-cress collector, major domo at the Jolly Bowl etc., has a new role, in fact, two new roles, according to reports obtained today. During the past few days he has caught 21 pigeons and one three foot snake. The pigeons have been liberated but the snake, according to Jack is being roasted so that he can secure a desired supply of snake oil.

According to Jack he travelled to Jolly Bowl recently, which has suspended operations while Grant street is being repaved. As he is employed as a janitor it vexed him considerably to find that pigeons were making some parts of the bowl their habitat. "I'll fix 'em" said Jack and he proceeded to do that very thing. He said he got a sticky substance, put it in several places and lo—

When he visited the bowl the next day 21 pigeons had been caught in the trap. Their feet were stuck to the board and their heads hung downward, probably cognizant of the manner in which they had been caught so easily. Jack giggled in glee and liberated the pigeons and does not believe they will return.

His second experience of the week came on a farm near the city golf course where he gathers water-cress. He claims that while he was gathering the water cress he speared a snake three feet long. He isn't afraid of snakes so he grabbed it and after examining it dispatched the reptile, the

species of which he says he is not acquainted.

"It had a white belly and had dark rings around its back" said Jack. "What are you going to do with it?" he was asked.

"I'm roasting it to get snake oil. It might help my hearing" said James who is slightly deaf.

Sewer Connection Bill In Committee

Union Township- New Castle Sewer Connections Problem Has Not Yet Been Settled

It was stated in City Hall circles today that the proposed ordinance, under terms of which Union township would be allowed to connect sewers with the New Castle sewer system, is in committee and it is probable that the city will change any of its conditions to which township supervisors objected recently.

The ordinance was prepared by Solicitor Robert White after the supervisors had asked council the terms under which the connections could be made. The township officials planned to drain the section near

West Washington street's city line and the district in Oakland. Harvey Milholland, engineer for the township, today was asked if any move was planned and he said that in his opinion the township having voiced objections to some terms, the next move was up to city councilmen.

Solicitor White today said that he did not believe the city would grant any drastic change in the bill which he had prepared. It was opined by Milholland that it would be possible for the township to ask that viewers be named, a report given the court which could hand down a decision, after which either party would have the right to appeal.

Solicitor White said that in his opinion there is no way in which the city could be compelled to allow the connections. **Slight Accidents Reported To Police**
V. F. Varnum of 708 Cleveland, O. reported today that he was enroute south on South Mill street at the P. and L. E. crossing, when the crossing watchman lit the gate down on the

hood of his machine, breaking the gate. According to Varnum, the watchman let a boy only a few feet ahead of him go through, then let the gate down on him without warning.

Ronald Wimer of 911 Lorain avenue, reported that he was driving north on Liberty street at Wabash avenue when a car bearing Pennsylvania license KK818 going south on Liberty street made a left hand turn in front of his machine and they came together. Some damage was done.

Guille Named Head Of Bryan University

(International News Service) DAYTON, Tenn., July 22—Dr. George E. Guille, of Athens, Tenn., is the first president of Bryan Memorial University, a memorial to the Great Commoner who died here two days after the famous Scopes case. Announcement of the selection of Dr. Guille, a staunch fundamentalist and Moody Bible Institute worker for 15 years in Chicago, was made by F. E. Robinson, president of the Bryan University Memorial Association. The vice-president will take Malcolm Lockhart, graduate of Georgia University.

The university will open classes September 18 in Rhea County High School Building. First unit of the University, the administration building, is now being erected almost within the shadow of the Rhea County court house, where William Jennings Bryan delivered the last speeches of his eventful career.

Texas Ports Win Freight Rate Cut

(International News Service) GALVESTON, Tex., July 22—Texas ports won the freight rate cut over New Orleans when the United States district court here handed down a decision authorizing lower freight rates to Texas ports on commodities originating in Texas, Oklahoma and Southern Kansas, where the distance

to New Orleans is 55 per cent greater than to Texas ports.

The case was styled Texas and Pacific Railway Company and the Louisiana and Arkansas Railway Company vs. the United States. Two judges of the three-judge court held complaints of the plaintiff were without equity and should be dismissed. The third judge absented.

Paris Recovers Most Stolen Autos

(International News Service) PARIS, July 22—Automobile thieves can't keep their loot for long in France. Sooner or later almost all stolen cars are returned to their owners in this country. During the past year 3,000 automobiles were stolen, and of that number only 493 cars have not been found. Most automobile stealing takes place in Paris, very few automobile thieves finding it worth while to operate in the provinces.

Rev. Bert Williams Will Speak In Tent

Gospel Meetings Being Held Nightly By Pentecostal Assembly In Tent

Rev. Bert Williams, pastor of the First Baptist church of Ellwood City and well known as an evangelistic speaker and staunch defender of the faith in this district, will be the speaker this evening in the gospel tent erected opposite the new Epworth church.

The meetings being carried on in this tent under the auspices of the Pentecostal Assembly, of which W. L. Shiner is minister, are being well attended. Sunday's services were featured by a duet by Mrs. W. F. Wendt and M. Schindler, of Florida. Joseph Jenkins also sang a beautiful solo and both numbers were well received.

The meetings will continue each evening except Saturday and Monday, beginning at 7:30.

Thermometer Hits Another High Mark

Mercury Reaches 100 Yesterday Afternoon; Showers Bring Some Relief

Another high mark was recorded by the thermometer at the U. S. weather observation station here yesterday, when the mercury went up to an even 100 shortly after noon.

There was a good breeze blowing yesterday which was noticeable in the higher sections of the city, and many were unaware of the extreme heat.

Showers which have been promised for the last four days finally materialized last evening and brought some relief during the night, the temperature dropping to 69 early this morning.

There was a refreshing breeze throughout the night.

Grass Burns Along Railroad Tracks
Dried up by the unusual drought which has been in progress here for the past two weeks, a considerable area above the P. and L. E. tracks on Sheep Hill, across from the Shenango Tin Mill, was burned over last evening.

It is believed that the grass became ignited from sparks from a passing locomotive. It is unusual for grass fires to start this early in the summer, but the extreme heat has dried up vegetation so that it will burn easily.

Mercer Street Is Being Re-Surfaced

Mercer street hill, between Grant street and Lincoln avenue, is being resurfaced by the street department.

A coating of crushed limestone has been applied on the upper half of the hill, while the lower part is being scraped and smoothed up. This will probably be oiled again, to keep down the dust.

The hill is extremely hard to keep in good condition because of its steepness and the fact that it is not paved.

14. The Puritans—Roger Williams

MOST FAMOUS OF THOSE WHO WERE DISSATISFIED WITH THE WAY THE PURITANS RAN THE MASSACHUSETTS BAY COLONY WAS ROGER WILLIAMS, A GIFTED, OUTSPOKEN YOUNG CLERGYMAN WHO HAD COME TO NEW ENGLAND IN 1631.

IN 1633 HE BECAME PASTOR OF A CHURCH IN SALEM. WILLIAMS PUBLICLY EXPRESSED OPINIONS WHICH WERE EXCEEDINGLY DISTASTEFUL TO THE PURITAN CLERGY AND OFFICIALS. HE ADVOCATED COMPLETE FREEDOM OF WORSHIP AND THE SEPARATION OF CHURCH AND STATE.

HE WENT SO FAR AS TO ATTACK THE LEGALITY OF THE COLONISTS' TITLE TO THE LAND THEY HELD, DECLARING THAT THE KING OF ENGLAND HAD HAD NO RIGHT TO GRANT LAND WHICH WAS NOT HIS, AND THAT THE COLONISTS SHOULD HAVE BOUGHT IT FROM THE RIGHTFUL OWNERS, THE INDIANS.

AMONG OTHER THINGS, WILLIAMS ATTACKED THE SUNDAY LAWS. NATURALLY, HIS VIEWS BROUGHT HIM INTO CONFLICT WITH BOTH THE CLERGY AND THE MAGISTRATES.

Grogan-Flowers Battle Tonight

Tommy Grogan And Bruce Flowers Battle Tonight, Winner To Meet Suarez

BOUT LONG WANTED BY MANY PROMOTERS

By HYPE IGO
International News Service Sports Writer

NEW YORK, July 22.—For nearly three years matchmakers all over the country have been trying to bring Tommy Grogan and Bruce Flowers together. The little fellow from Omaha, he that carries T. N. T. in his fists, and Tony Canzoneri on the floor for a count of nine in the first round of their bout in the Queensboro stadium a few nights back.

Grogan is one of the best hitters among the lightweights. Flowers one of the most consistent. Among his battles were the two with Jack Berg in Madison Square Garden.

Grogan and Flowers are to meet in the headline event at the Queensboro stadium tonight. The winner will be matched with the new lightweight star from South America, Justo Suarez, who made such a great impression against Joe Glick at the Yankee stadium last Thursday night.

Incidentally, both Glick and Suarez were the Taylor protectors, and though Glick landed few severe times, the Argentine didn't even peep. His actions planted the lie among the fellows who have been going to the yellowing foul of late. Suarez was hit low with great force in one instance, but only the crowd groaned. Justo didn't.

Justo is at least one fighter in the world who can receive a blow below the belt and forget to be a cry-baby about it. In the semi-final Sammy Dorfman and Lew Paluso are to box ten rounds.

Paluso was one of the smartest young men employed in the Singer camp at Delaware Water Gap recently. He fought Suarez in Buenos Aires and was knocked out in less than a round.

Singer Is Scared
Louis Gutierrez, manager of Keed Chocolate, issues a long statement in which he takes over Al Singer to task for Al's supposed announcement not to fight the Cuban bonbon.

Gutierrez points out that Singer, if he really intends to bar Chocolate, and personally I don't think he does, is doing something that Benny Leonard wasn't ashamed to do, he fought and knocked out Johnny Kilbane when Johnny was the featherweight king and himself the lightweight crown bearer.

When the Chocolate ban was first mentioned, it was given out that Singer wouldn't meet the keed because Chocolate was a lightweight. Since then Hymie Caplin, Singer's manager, said that they barred Chocolate in the first great thrill of victory over Mandell, but that it doesn't go now if the keed hears it. Singer wants a Chocolate battle if he wants to sell his purse, at all.

Chocolate and Singer drew \$215,000 when they met and of this the keed earned \$44,000.

At the summer of 1928, Chocolate came here from Cuba determined to fight the best men that could be secured. The promoters laughed at him, he finally got a call to meet some boy at Mitchell Field, for which he got the staggering sum of \$59.

In twelve months time he was a great big shot and got the bout with Singer which he won on a decision, and earned some \$44,000 for his end.

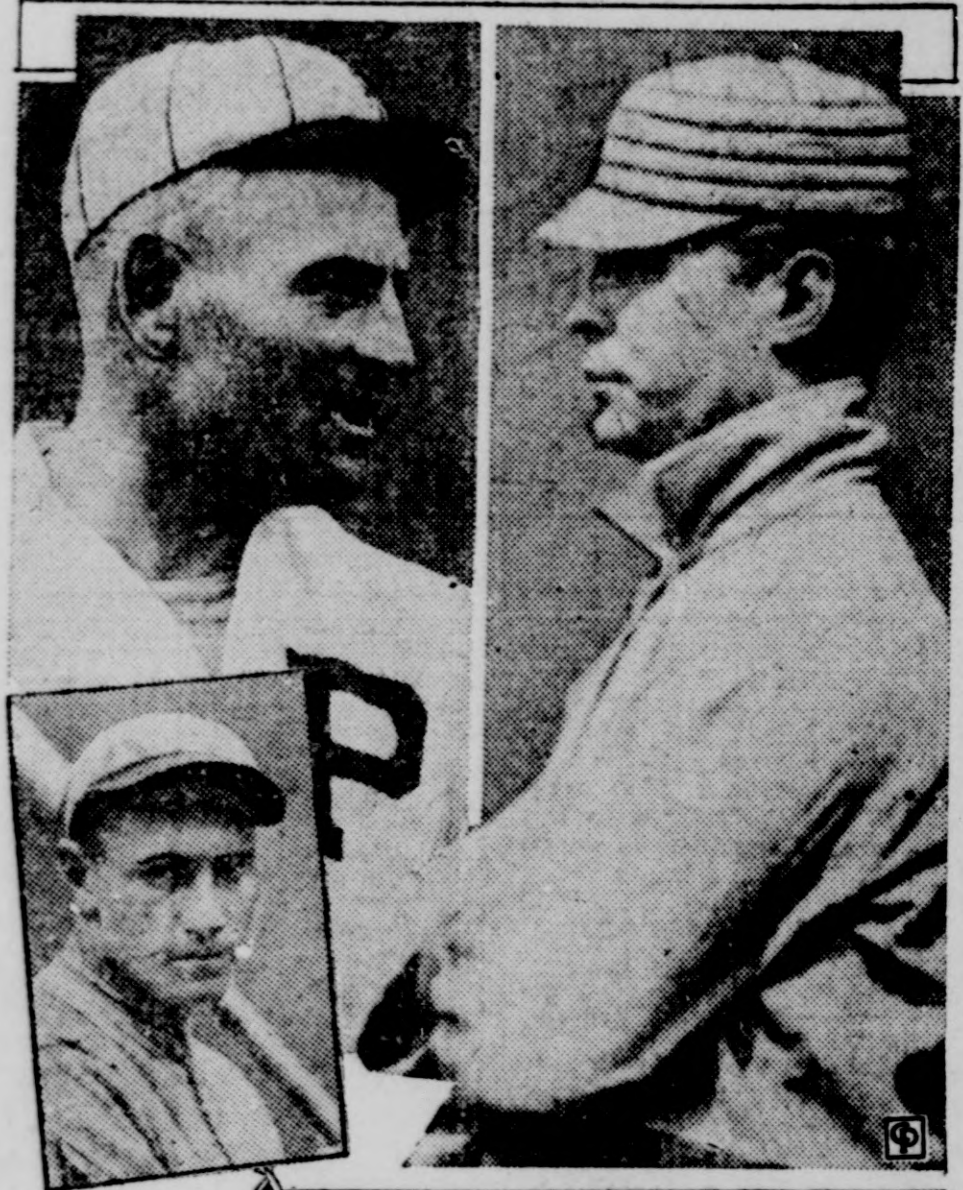

Table manners may be, as a public health official says, closely associated with hygiene. But some of the healthiest men we ever saw ate with their knives and used their shirt sleeves as napkins.—The Haverhill Gazette.

Philly, Not New York, Home Of Homer Kings

Though Babe Ruth has brought home run fame to New York in recent years, Philadelphia, the city to which Chuck Klein has brought the National league four-pley title, produced all the old original home run kings. Two are shown above with Klein, inset. C. C. (Cactus) Cravath, left, Philadelphia National's outfielder, led the senior circuit in homers for six years, 1913, 1914, 1915, 1917, 1918 and 1919. Harry Davis, right, Philadelphia American's first baseman, led the American league in homers for four years, 1904 to 1907. Frank (Home Run) Baker, also of the Athletics, led the American for four years, 1911 to 1914.

Jackie Rodgers defeated Johnny Dunn in a 10 round bout at Pittsburgh last night and in the first bout Snowflake Wright knocked out Joe Midway in the second round. Wright, as stated, in these columns a few days ago had given Henry Firpo the scare of his life. Midway was down twice before the final blow came. In another bout Bud Ciccone of Scranton knocked out Tommy Ward of Pittsburgh in second round. Tug Phillips and Johnny Smackey fought a draw in the semi-final.

Nocturnal baseball will make its debut in Beaver Falls, Wednesday July 23, when the Homestead Grays and Kansas City club, American colored champions, play. The Kansas City team carries its own illumination equipment. The game is to be played on the Beaver Falls high school field. The game will start at nine o'clock.

Primo Carnera, Italian boxer and his French manager Leon See have been notified by Washington immigration officials to leave American shores immediately, according to an announcement by Frank Pacassi, business manager. They have applied for an extension of their time. Their six months permit has expired, it was reported in New York dispatches.

Tony Canzoneri, New York City scored over Benny Bass in a non-title battle at Philadelphia last night which went 10 rounds.

Mahoning A. A. wants games with Harlanburg, Energy, West Pittsburg, Polish A. A. and other good teams. Managers should call P. F. Cardella at 1043-J.

Grover Cleveland Alexander, veteran major league hurler and a hero of world series, has been given his outright release for failure to keep in training.

Koerning of Germany, Peterson of Sweden defeated Americans at Stockholm yesterday. Pendleton, U. S. was third in the 200 meter dash and Anderson U. S. lost in the 120 yard high hurdles.

William T. Thiden will lead the U. S. tennis team in the Davis cup matches in America's third attempt at Autecul to regain the International trophy from France.

Cubs Take Lead, Wilson Hits Two Homers In Battle

Chicago Cubs Go Into First Place As Cards And Dodgers Divide Set Of Games

By COPELAND C. BURG
International News Service Sports Writer.

NEW YORK, July 22.—If, as they say, action is eloquence, Hack Wilson was running around town today a modern Demosthenes with loud-speaking attachments.

For that squat, ox-like gentleman spoke with two mighty blasts yesterday and when the last dying echoes of his two home runs had wafted down the Hudson the Giants had been stopped 6 to 0, the Cubs took the National plant lead from the Robins and Mr. Wilson became the leading four-base clout collector of the league with 29 super single-bashes to his credit. And, en passant, as they say in Hoboken, Pat Malone wasn't bad out there on the mound, allowing the young men of Manhattan only eight hits widely scattered over eight innings.

Then of his own free will and accord he went to the showers as the mercury touched 99 or thereabouts. Charlie Root took up the cudgels in the ninth but with the heat and everything as it was, the Giants just gently subside and let it go at that.

St. Louis split a doubleheader 9 to 8 and 17 to 10 with the pop-stricken Robins. Hendrick, pinch-hitting, won the first game for the flock with a homer with two on in the ninth. In the tea tilter four Brooklyn pitchers were helpless as High with four hits led the Cardinal sluggers to a killing.

Ruth Hits 3th.
Babe Ruth poked his 35th homer and Lou Gehrig hits his No. 28 as the Yankees slashed the Indians 7 to 3. Ruth is 12 games ahead of his record year, 1927.

Charlie Gehringer tripped with a man on the fifth and then stole home, paving the way for a 7 to 6 triumph of Detroit over the champion Athletics.

Stewart spaced ten hits he gave the Senators and the Browns won again from Washington 6 to 4.

Five safeties was all the White Sox could jar loose from Lisencen, Boston taking it, 3 to 1.

Lester Sweetland was strong while Kremer weakened and the Phillies humbled the Pirates 7 to 2. Whitney and Southern circled for Philadelphia.

The Reds and Braves were idle.

Al Singer Will Meet Jack Berg

(International News Service)
NEW YORK, July 22.—Jack (Kid) Berg of England, and Al Singer, new lightweight champion, were tentatively matched today for a meeting here August 7. Details as to whether the bout will be for the title and purses have not been arranged.

SORDS POINTS

Sandlots To Major: In Three Months

By JACK CORDS
Central Press Sports Cartoonist
Writer.

THREE MONTHS from the day on which he played his first game of professional summer baseball, Harry Rosenberg, 21-year old Jewish lad, finds himself in the uniform of the New York Giants, his name and picture in the metropolitan newspaper and an anxious fandom watching him with hopeful eyes.

Rosenberg's "career" has been as short as it is meteoric. Batting .400 in the California winter league, his first league, his first serious try at the diamond game, Harry was picked up by the Missions of San Francisco this spring and immediately became a sensation.

Batting .370, a remarkable average for a youngster, he was grabbed by

Manager John J. McGraw for the Giants for \$50,000 and was immediately brought east.

Rosenberg's rapid rise is one of the most remarkable baseball has ever seen. Just a few months ago he had no idea of ever getting anywhere with a baseball career and here he is today, called a sensational "find" and worth, in the estimation of at least the Giants, a cool \$50,000.

If Harry plays good baseball for the McGrawmen he should find himself one of the bigger idols of Gotham. Jewish ball players are very popular in the metropolis. Andy Cohen, an infielder who could not make the grade with the Giants, was a favorite in Manhattan though his playing ability was nothing to cheer over.

Rosenberg is an outfielder, nearly six feet in height and weighing in the neighborhood of 185 pounds.

and Ted Sandwina, Sioux City, Iowa, drew (10).

Eddie Benson, New York heavy-weight, scored a technical kayo over Jack Phoenix, New York (7).

Johnny Vestri, New York feather-weight, defeated Oscar Bernard, Panama (8).

Ralph Ficucello, Brooklyn heavy-weight, defeated Lou Barba, New York (10).

AT BRADDOCK, PA.—Jackie Rodgers, Pittsburgh northside Negro, defeated Johnny Dunn, New Kensington (10).

Tug Phillips, Erie, and Johnny Smackey, Canonsburg, fought a draw in an 8-round fight.

Bud Ciccone, Pittsburgh, scored a kayo over Tommy Ward, southside (6).

Jimmy Wright, Cleveland, knocked out Joe Midway, New Castle (6).

AT PEORIA, ILL.—Eddie Shea, Chicago, defeated Ray McIntyre, Los Angeles featherweight, by knockout (1).

FRENCH NET TEAM TO DEFEND CUP

These four French tennis stars will defend the Davis Cup in the challenge round matches with the American team at Paris. Henri Cochet, shown in action, is expected to play in at least two singles matches. Jean Borotra, center inset, is France's other singles star. Jacques Brugnon, top inset, and Christian Boususs, bottom inset, are expected to appear in the doubles match.

Endurance Plane Sticks In Air At Roosevelt Field

One Other Endurance Plane Forced To Land When Pilot Is Overcome By Heat

(International News Service)

ROOSEVELT FIELD, N. Y., July 22.—The red monoplane piloted by Robert Black and Louis Reichers aloft since 8:30 p. m. Sunday in an attempt to break the endurance refueling record, was going strong today.

The plane at that time has been in the air more than 35 hours.

A green plane which took off Sunday piloted by "Tex" Anding and Jack Charleson landed last night, Anding was overcome by the heat.

Residents have complained to District Attorney Edwards of the droning of the motors. They called his attention to the fact that planes were not supposed to descend any lower than 1,500 feet. Edwards said he would stop the flight if the noise became a nuisance.

Sport Ritticisms

By BILL RITT
A WEST VIRGINIA saloon keeper says he challenged Art Shires by mail to a tobacco chewing contest, but Art refused to answer. Don't blame him. With baseball and boxing and all that, Art has to keep his amateur standing in at least one sport.

Night baseball, complain the players, makes their eyes hurt. And watching some of them play it, complain the fans, makes their heads ache.

Many a rookie who started out to win the pennant for the home folks has turned out to be nothing but a stowaway.

Having lost his lightweight title in less than two minutes, Sammy Mandell has the satisfaction of knowing he was in there longer than a lot of big league pictures.

Overconfidence is bad for baseball teams, says an observer. Sure, just look at the St. Louis Browns. They just know they haven't a chance!

The transportation problem must be terrible in the big leagues. The White Sox had 65 players stranded on the bases in five games, with nobody having the right tickets to send them home.

Golf may still be in its infancy but Walter Hagen and some of the other pros are now wearing long pants while at work.

FROM TEE TO GREEN

By ROY GROVE
Central Press Golf Writer

TOMMY ARMOUR is not only the master of iron players, but also uses the smoothest stroke in executing the shots.

The average golfer is consistently pressing the iron clubs. First he is afraid he will not reach the green, and, secondly, he fears the club.

Instead of the No. 3 iron you have been using for some particular shot of that distance, fall back to a No. 4 and let the loft and swing of that iron do the work. This may sound odd to the average player, but it is very true that you can lessen the loft of the club and play the shot with much more accuracy and distance than you have been in forcing a No. 3 or a No. 2 iron.

Armour's play, although rather unorthodox in stance where the right foot is played back of the left, is a very stiff left arm with the right elbow close into the side.

Practice those two points until you are in the groove of the swing before you try to put the punch into the shot. In the three illustrations of Armour's play note the position of the right and left arm at the three important points of iron play.

It is these three points that make him the master of the iron game.

Study the position of the left shoulder on the backswing. It is at this point that Armour becomes balanced and ready for punch and accuracy. If your swing is not for the down swing your timing will throw the ball off line.

Among the things we will not try to make a joke of is the dispatch stating the Representative Fish of New York is wet.—The Cleveland News.

Outsider Leads Western Amateur

(International News Service)

BEVERLY COUNTRY CLUB, Chicago, Ill., July 22.—With Lloyd Nordstrom, a hitherto unknown player from Davenport, Ia., leading the field with a 72, the Western amateur golf tournament went into the second day of qualifying play here today.

By nightfall and the completion of the second eighteen holes of play the 32 entrants who qualified for match play will be named.

The nearest approach to par and perfection yesterday was the card turned in by Nordstrom, a card that read 38-34-72. Nordstrom's card was one stroke over par. Hearing that there were more than 200 entries in the championship at starting time, Nordstrom figured that one more wouldn't do any harm and he came in the tournament as an added start.

NEW YORK STOCKS

Market Conditions Unchanged Today

(International News Service) NEW YORK, July 22.—Except for a few feeble rallies in the stocks which have been under the heaviest selling pressure, general conditions in the stock market this morning were unchanged from yesterday's final period.

The bulk of the active industrial stocks opened lower, rallied a point or so on the average, and then sank back to their original price levels. Short covering by the professionals was responsible chiefly for the firmer tone in Radio Keith, Chrysler, American Can, U. S. Steel, Standard Oil of New Jersey and other favorites.

Continuance of the hot weather, indifferent industrial and business reports, the failure of the Grain and Cotton markets to rally and the discouraging second quarter statements issued by Atlantic Refining Company and Westinghouse were the principal obstacles to public buying of industrial stocks.

This short-covering rally in the second hour brought American Can back to 124 1/2, up 1 1/2 from Monday's close; Consolidated Gas up 1 1/2 to 109 1/2; U. S. Steel to 163 1/2, up nearly a point; Vanadium to 95 1/2, up 2 1/2. On the whole, the market was dull but firm.

Wheat, Corn and Cotton dropped off slightly lower levels and call money was unchanged at 2 per cent.

Celebration Ends Monday Evening

The celebration in commemoration of St. Margaret ended Monday evening in the Seventh ward. The celebration was among the Italian people of the ward. Sunday was St. Margaret's Day, and it was observed in a fitting manner at St. Lucy's Italian Catholic church on South Liberty street. Rev. Fr. S. Ippolito is pastor.

On Monday the big celebration in observance of the Saint's day took place. The day's program beginning with salutes fired from ground batteries. During the morning there was high mass at St. Lucy's church followed by a parade by a band from Rochester, N. Y. During the evening there was mass in the church and a concert by the band. Later in the evening there were some fireworks, but not many on account of the rain.

For the occasion the South Liberty street district was decorated with flags and bunting. It was illuminated with additional lights. Also there were a number of stands.

With Richards
Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle.

There are several ways of building a church, that is of getting the work done. You can either pay for it or else. Or else you can get somebody to do it free. The new Epworth M. E. church has partly adopted the latter idea. And today there are a lot of blisters where there were no blisters before.

Sunday morning, Rev. Samuel L. Maxwell announced that all the men of the church were invited to a pick and shovel party at the new church site for the purpose of leveling a young mountain. He would pick a night as sultry as last night.

At six o'clock the guests began to arrive dressed in various fatigue costumes, and some of the picks brought along looked as though they hadn't been used since the flood of 1913. As for shovels there were long handled ones, short handled ones, big ones and little ones, with about forty men there ready to go.

Dignity took off its silk hat and some of the boys there who have payrolls running into four figures a week, were doing some real labor for the first time in years.

Charley Andrews who runs a brick plant out on the Harlansburg Road had a shovel with a handle on it as long as a three week pay, and between shovels full he philosophized on the dignity of labor.

Claude McMichael earned the title of the Dude Digger, for he turned up garbed in gloves. Canvas gloves they were, but gloves at any rate. The boys allowed him a handicap of three strokes.

Business men, professional men, labor craftsmen all of them did their bit and all of them got the same pay, a drink of lemonade, furnished by the young ladies of Mrs. Mary McConaghy's Bible class.

Some of the lads probably woke up this morning wondering why they creaked when they got out of bed, and the blister crop is enjoying a bull market. But the leveling was done, some large holes were filled in and everybody enjoyed it. Or said they did.

Seriously, it was a splendid gesture to see those men out there laboring with all the enthusiasm of a slave-dore on pay day. Churches are not built entirely of stone and steel. You have to put more than that into them. Service and sacrifice, loyalty and love, and Epworth church will be the better because the men of the church were willing to do menial labor, that the building might be speeded up.

But there is one question that remains unanswered. After starting the job, and doing about a dime's worth of work, the crew wanted to know why Rev. Maxwell knocked off before the whistle blew. He had another engagement (he claimed) and left.

The mystery of the stolen water-melons during the Spanish-American War is clearing up gradually. Sandy Howard disclaiming any responsibility for the theft of the melons. Sandy denies any attempt to link him with the pilfering. "I never stole the melons," he declared with some heat, or maybe it was just the regular heat of the day. "All I did was hold the driver of the wagon while the other lads hooked the melons."

"And anyway," said Sandy, "the melons weren't any good. When we got them on the train, they were as green as dandelions and we couldn't eat them."

You really don't miss the city water supply until the main goes bust. Residents in the Elizabeth and Delaware avenue districts had a sample of what it meant last night when the water main up there went haywire. Bath-tubs were hurriedly filled before the supply went out altogether, and for the evening the folks were on short rations.

Workmen of the Water Company were on the job in a hurry but quite naturally it takes time to repair a break. There was one advantage to the break according to a couple of small boys, they didn't have to wash their feet last night before going to bed.

The dog who gets into this colyum occasionally, pulled another fast one last night. In size he is smaller than a Shetland pony, not much, and as strong as an army mule. Hence his battle with a June bug was all the more ridiculous.

He discovered the June bug on the lawn and apparently the bug insulted the police dog. Then the fun began. After circling the bug for a while to gain advantage, the dog turned the bug over on its back. After some careful reconnoitering, the pooch made a fast swipe at the bug which marked the end of its earthly career. Not satisfied with that, he proceeded to roll his seventy or eighty pounds back and forth on the prostrate form of the bug, which added to the general soupy condition.

It was a tough battle and after assuring himself that the bug was seriously dead, the dog indulged in some war whoops that could be heard for half a mile.

Hereafter New York will not disqualify a fighter who fouls. Future training will include guarding with the knee.

OH, THESE WOMEN!

By LEOLA ALLARD

A lady writes me that a married man in her town is cheating. He plays golf and has lunch with a married woman, and he is forever "staying late at the office." She wonders if she hadn't better tell his wife, she being her BEST FRIEND and "not let him get away with such hypocrisy."

Now if that isn't a happy little job she has picked out for herself! She asks me in answering, NOT to tell what town she writes from. You

see she herself doesn't enjoy being found out. The wife reads my column and she might suspect her, or worse yet, she might guess the truth and deprive this "best friend" of the joy of telling her.

What an idea! And what do you think you will accomplish by this gossip that you know will break your friend's heart, break up her home, ruin the other woman's home, crush her husband, and if there are any children in the picture, smash their

ideals. Now isn't that something to wonder about? If you do all those things to all those people, somebody ought to do something to you. I can't think just what.

Robert Louis Stevenson wrote: "There was never anything made better by meddling." And you sound like a first class meddling. I don't think you mean it that way. I believe you must be a reformer, who wants the whole world go straight and who thinks it's your duty to see that it does. You don't want any sins Undiscovered. But did you ever sit down and think over your own sins? Would you want everybody to know EVERYTHING about YOU? If you would, then you should be sitting on a cloud in a white robe and sandals playing a harp.

Did it ever occur to you that perhaps in the homes of these people involved in this scandal, there is something very terrible that you don't know about? Something that has destroyed their happiness together? Perhaps if you don't mow them all down, they will change and their home happiness come back to them. Are you afraid they might get by without anybody finding their sins? Did you ever get by with anything? Are you very strong in temptation or are you so hard and cruel that people were never tempted to tempt you? If you ever make the business of these people your business, and ruin them, I'd like to have you write me what happens—if there is a murder or maybe two because of it. I take it you won't be one of those to be harmed.
